Southern California Edison Company

$400,000,000 Floating Rate First and Refunding Mortgage Bonds, Series 2021B, Due 2023
$400,000,000 Floating Rate First and Refunding Mortgage Bonds, Series 2021C, Due 2024
$350,000,000 0.70% First and Refunding Mortgage Bonds, Series 2021D, Due 2023
$700,000,000 1.10% First and Refunding Mortgage Bonds, Series 2021E, Due 2024

We are offering $400,000,000 principal amount of our Floating Rate First and Refunding Mortgage Bonds, Series 2021B, due 2023 (the “Floating Rate 2023 Bonds”) and $400,000,000 principal amount of our Floating Rate First and Refunding Mortgage Bonds, Series 2021C, due 2024 (the “Floating Rate 2024 Bonds”) and together with the Floating Rate 2023 Bonds, the “Floating Rate Bonds”). We are also offering $350,000,000 principal amount of our 0.70% First and Refunding Mortgage Bonds, Series 2021D, due 2023 (the “Fixed Rate 2023 Bonds”) and $750,000,000 principal amount of our 1.10% First and Refunding Mortgage Bonds, Series 2021E, due 2024 (the “Fixed Rate 2024 Bonds” and together with the Fixed Rate 2023 Bonds, the “Fixed Rate Bonds”). We refer to the Floating Rate Bonds and the Fixed Rate Bonds together in this prospectus supplement as the “bonds.”

We will pay interest quarterly in arrears on the Floating Rate Bonds at a floating rate equal to Compounded SOFR (as defined herein) plus 0.64% for the Floating Rate 2023 Bonds and Compounded SOFR plus 0.83% for the Floating Rate 2024 Bonds, as further described under the caption “Certain Terms of the Bonds—Interest and Maturity—Floating Rate Bonds.” Interest on the Floating Rate Bonds is payable on January 1, April 1, July 1 and October 1, beginning on July 1, 2021. The Floating Rate 2023 Bonds will mature on April 3, 2023. The Floating Rate 2024 Bonds will mature on April 1, 2024.

We will pay interest on the Fixed Rate Bonds semi-annually on April 1 and October 1 of each year, beginning on October 1, 2021. The Fixed Rate 2023 Bonds will bear interest at the rate of 0.70% per year. The Fixed Rate 2023 Bonds will mature on April 3, 2023. The Fixed Rate 2024 Bonds will bear interest at the rate of 1.10% per year. The Fixed Rate 2024 Bonds will mature on April 1, 2024.

We may at our option redeem some or all of the Floating Rate 2024 Bonds and/or the Fixed Rate 2024 Bonds at any time on or after April 1, 2023. The redemption prices are discussed under the caption “Certain Terms of the Bonds—Optional Redemption.” The bonds will be senior secured obligations of our company and will rank equally with all of our other senior secured indebtedness from time to time outstanding.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the related prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

ABOUT THIS PROSPECTUS SUPPLEMENT

This document is in two parts. The first part is this prospectus supplement, which describes the specific terms of the bonds we are offering and certain other matters about us and our financial condition. The second part, the base prospectus, provides general information about the first mortgage bonds and other securities that we may offer from time to time, some of which may not apply to the bonds we are offering hereby. Generally, when we refer to the prospectus, we are referring to both parts of this document combined. If the description of the bonds varies between this prospectus supplement and the accompanying base prospectus, you should rely on the information in this prospectus supplement.

References in this prospectus to “Southern California Edison,” “we,” “us,” and “our” mean Southern California Edison Company, a California corporation. In this prospectus, we refer to our Floating Rate 2023 Bonds, Floating Rate 2024 Bonds, Fixed Rate 2023 Bonds and Fixed Rate 2024 Bonds, which are offered hereby, collectively as the “bonds.” We refer to all of our outstanding First and Refunding Mortgage Bonds as our “first mortgage bonds.”

PRIIPs Regulation/Prohibition of Sales to EEA and UK Retail Investors

The bonds are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “MiFID II”); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the “Insurance Distribution Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “Prospectus Regulation”). For the purposes of this provision, the expression “an offer” includes the communication in any form and by any means of sufficient information on the terms of the offer and the bonds to be offered so as to enable an investor to decide to purchase or subscribe for the bonds. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the bonds or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the bonds or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

The bonds are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“UK”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the Financial Services and Markets Act 2000 (“FSMA”) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. For the purpose of this provision, the expression “an offer” includes the communication in any form and by any means of sufficient information on the terms of the offer and the bonds to be offered so as to enable an investor to decide to purchase or subscribe for the bonds. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the “UK PRIIPs Regulation”) for offering or selling the bonds or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the bonds or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.
FORWARD-LOOKING STATEMENTS

This prospectus and the documents they incorporate by reference contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements reflect our current expectations and projections about future events based on our knowledge of present facts and circumstances and assumptions about future events and include any statement that does not directly relate to a historical or current fact. In this prospectus and elsewhere, the words “expects,” “believes,” “anticipates,” “estimates,” “projects,” “intends,” “plans,” “probable,” “may,” “will,” “could,” “would,” “should,” and variations of such words and similar expressions, or discussions of strategy or of plans, are intended to identify forward-looking statements. Such statements necessarily involve risks and uncertainties that could cause actual results to differ materially from those anticipated. Some of the risks, uncertainties and other important factors that could cause results to differ from those currently expected, or that otherwise could impact us, include, but are not limited to:

- our ability to implement our Wildfire Mitigation Plan;
- risks of regulatory or legislative restrictions that would limit our ability to implement our Public Safety Power Shutoff Program (“PSPS”) when conditions warrant or would otherwise limit our operational PSPS practices;
- risks associated with implementing PSPS, including regulatory fines and penalties, claims for damages and reputational harm;
- our ability to maintain a valid safety certification;
- our ability to obtain sufficient insurance at a reasonable cost, including insurance relating to our nuclear facilities and wildfire-related claims, and to recover the costs of such insurance or, in the event liabilities exceed insured amounts, the ability to recover uninsured losses from customers or other parties;
- extreme weather-related incidents (including events caused, or exacerbated, by climate change, such as wildfires, debris flows, high wind events and extreme heat events) and other natural disasters (such as earthquakes), which could cause, among other things, public safety issues, property damage, operational issues (such as rotating outages and issues due to damaged infrastructure), PSPS activations and unanticipated costs;
- risks associated with California Assembly Bill 1054, executed by the Governor of California on July 12, 2019 (“AB 1054”) effectively mitigating the significant risk faced by California investor-owned utilities related to liability for damages arising from catastrophic wildfires where utility facilities are alleged to be a substantial cause, including the longevity of the Wildfire Insurance Fund, and the California Public Utilities Commission (“CPUC”) interpretation of and actions under AB 1054, including its interpretation of the new prudency standard established under AB 1054;
- decisions and other actions by the CPUC, the Federal Energy Regulatory Commission, the Nuclear Regulatory Commission and other regulatory and legislative authorities, including decisions and actions related to nationwide or statewide crisis, determinations of authorized rates of return or return on equity, the recoverability of wildfire-related and mudslide-related costs, issuance of our wildfire safety certification, wildfire mitigation efforts, and delays in executive, regulatory and legislative actions;
- our ability to borrow funds and access bank and capital markets on reasonable terms;
- risks associated with the decommissioning of San Onofre Nuclear Generating Station, including those related to worker and public safety, public opposition, permitting, governmental approvals, on-site storage of spent nuclear fuel, delays, contractual disputes, and cost overruns;
- pandemics, such as COVID-19, and other events that cause regional, statewide, national or global disruption, which could impact, among other things, our business, operations, cash flows, liquidity and/or financial results and cause us to incur unanticipated costs;
• physical security of our critical assets and personnel and the cybersecurity of our critical information technology systems for grid control, and business, employee and customer data;

• risks associated with cost allocation, resulting in higher rates for utility bundled service customers because of possible customer bypass or departure for other electricity providers such as Community Choice Aggregators, which are cities, counties, and certain other public agencies with the authority to generate and/or purchase electricity for their local residents and businesses, and electric service providers;

• risks inherent in our transmission and distribution infrastructure investment program, including those related to project site identification, public opposition, environmental mitigation, construction, permitting, power curtailment costs (payments due under power contracts in the event there is insufficient transmission to enable acceptance of power delivery), changes in the California Independent System Operator (“CAISO”) transmission plans, and governmental approvals;

• risks associated with the operation of transmission and distribution assets and power generating facilities including worker and public safety issues, the risk of utility assets causing or contributing to wildfires, failure, availability, efficiency, and output of equipment and facilities, and availability and cost of spare parts;

• actions by credit rating agencies to downgrade our credit ratings or to place those ratings on negative watch or outlook;

• changes in tax laws and regulations, at both the state and federal levels, or changes in the application of those laws, that could affect recorded deferred tax assets and liabilities and effective tax rate;

• changes in future taxable income, or changes in tax law, that would limit our realization of expected net operating loss and tax credit carryover benefits prior to expiration;

• changes in the fair value of investments and other assets;

• changes in interest rates and rates of inflation, including escalation rates (which may be adjusted by public utility regulators);

• governmental, statutory, regulatory or administrative changes or initiatives affecting the electricity industry, including the market structure rules applicable to each market adopted by the North American Electric Reliability Corporation, CAISO, Western Electricity Council, and similar regulatory bodies in adjoining regions, and changes in the United States’ and California’s environmental priorities that lessen the importance the state places on greenhouse gas reduction;

• availability and creditworthiness of counterparties and the resulting effects on liquidity in the power and fuel markets and/or the ability of counterparties to pay amounts owed in excess of collateral provided in support of their obligations;

• cost and availability of labor, equipment and materials;

• potential for penalties or disallowance for non-compliance with applicable laws and regulations; and

• cost of fuel for generating facilities and related transportation, which could be impacted by, among other things, disruption of natural gas storage facilities, to the extent not recovered through regulated rate cost escalation provisions or balancing accounts.

Additional information about risks and uncertainties that could cause results to differ from those currently expected or that otherwise could impact us, including more detail about the factors described above, is included in our Annual Report on Form 10-K for the year ended December 31, 2020 and our other filings with the SEC filed subsequent to that date. Forward-looking statements speak only as of the date they are made and we are not obligated to publicly update or revise forward-looking statements.
SUMMARY

The following summary is qualified in its entirety by and should be read together with the more detailed information and audited financial statements, including the related bonds, contained or incorporated by reference in this prospectus supplement and the accompanying base prospectus.

Southern California Edison Company

Southern California Edison is an investor-owned public utility primarily engaged in the business of supplying and delivering electricity to an approximately 50,000 square mile area of southern California, excluding the City of Los Angeles and certain other cities. We own and operate transmission, distribution and generation facilities for the purpose of serving our customers’ electricity needs. In addition to power provided from our own generating resources, we procure power from a variety of sources including other utilities and merchant and other non-utility generators. Based in Rosemead, California, Southern California Edison was incorporated in California in 1909.

Southern California Edison is a subsidiary of Edison International. The mailing address and telephone number of our principal executive offices are P.O. Box 800, Rosemead, CA 91770 and (626) 302-1212.
The Offering

Issuer .................................. Southern California Edison Company, a California corporation.

Bonds Offered ....................... $400,000,000 Floating Rate First and Refunding Mortgage Bonds, Series 2021B, due 2023;

$400,000,000 Floating Rate First and Refunding Mortgage Bonds, Series 2021C, due 2024;

$350,000,000 0.70% First and Refunding Mortgage Bonds, Series 2021D, due 2023; and

$700,000,000 1.10% First and Refunding Mortgage Bonds, Series 2021E, due 2024.

Use of Proceeds ..................... We intend to use the net proceeds from the offering of the bonds to fund the payment of wildfire claims above the amount of expected insurance proceeds, including payments under a January 22, 2021 settlement agreement in connection with the Woolsey Fire, and to repay commercial paper borrowings used to fund the payment of such wildfire claims. See “Use of Proceeds” in this prospectus supplement.

Interest Payment Dates .............. Floating Rate Bonds

Quarterly in arrears on January 1, April 1, July 1 and October 1, beginning on July 1, 2021.

Fixed Rate Bonds

April 1 and October 1 of each year, beginning on October 1, 2021.

Floating Rate 2024 Bonds: April 1, 2024.

Fixed Rate 2024 Bonds: April 1, 2024.

Interest ............................. Floating Rate Bonds

The Floating Rate Bonds will bear interest at an annual rate equal to Compounded SOFR plus 0.64% for the Floating Rate 2023 Bonds and Compounded SOFR plus 0.83% for the Floating Rate 2024 Bonds. The level of Compounded SOFR and, therefore, the amount of interest payable with respect to each interest period will be determined on each corresponding interest payment determination date for such interest period. See “Certain Terms of the Bonds—Interest and Maturity—Floating Rate Bonds” for additional information.
Interest on all of the Floating Rate Bonds will accrue from April 1, 2021 and will be payable quarterly on each applicable interest payment date, beginning on July 1, 2021.

Fixed Rate Bonds

0.70% per annum for the Fixed Rate 2023 Bonds and

1.10% per annum for the Fixed Rate 2024 Bonds.

Interest on all of the Fixed Rate Bonds will accrue from April 1, 2021 and will be payable semi-annually on each applicable interest payment date, beginning on October 1, 2021.

Further Issues

We may, without the consent of the holders of the bonds, issue additional first mortgage bonds in the future, including additional bonds. The bonds offered by this prospectus supplement and any additional first mortgage bonds would rank equally and ratably under the first mortgage bond indenture. No additional first mortgage bonds may be issued if any event of default has occurred with respect to the bonds. Additional first mortgage bonds may not be issued unless net earnings for twelve months shall have been at least two and one-half times our total annual first mortgage bond interest charge and other conditions are met. As of December 31, 2020, we could issue approximately $18.8 billion of additional first mortgage bonds. See “Certain Terms of the Bonds—Further Issues” below in this prospectus supplement and “Description of the First Mortgage Bonds—Issue of Additional Bonds” in the base prospectus.

Optional Redemption

At any time on or after April 1, 2023 (the “Par Call Redemption Date”) for the Floating Rate 2024 Bonds and the Fixed Rate 2024 Bonds, we may at our option redeem the Floating Rate 2024 Bonds and/or the Fixed Rate 2024 Bonds, as applicable, in whole or in part, at the redemption price equal to 100% of the principal amount of the Floating Rate 2024 Bonds and/or the Fixed Rate 2024 Bonds, as applicable, to be redeemed plus accrued and unpaid interest thereon, if any, to but excluding the Par Call Redemption Date as described under “Certain Terms of the Bonds—Optional Redemption.”

Security

The bonds will be secured equally and ratably by a lien on substantially all of our property and franchises with all other first mortgage bonds outstanding now or issued in the future under our first mortgage bond indenture. The liens will constitute first priority liens, subject to permitted exceptions.

Ranking

The bonds will be our senior secured obligations ranking pari passu in right of payment with all of our other senior secured indebtedness from time to time outstanding, and prior to all other senior indebtedness from time to time outstanding to the extent of the value of the collateral available to the holders of the bonds, which collateral
is shared by such holders on a ratable basis with the holders of our other first mortgage bonds outstanding from time to time. As of December 31, 2020, we had $18.5 billion of our first mortgage bonds outstanding (including $751.9 million of first mortgage bonds issued to secure pollution control bonds).

Special Trust Fund

We are required to deposit in a special trust fund with the indenture trustee, on each May 1 and November 1, cash equal to 1 \( \frac{3}{2} \% \) (subject to redetermination from time to time) of the aggregate principal amount of first mortgage bonds then outstanding. Under the first mortgage bond indenture, we are able to withdraw cash from the special trust fund as long as we have sufficient additional property. There are currently no funds on deposit in the special trust fund.

Events of Default

For a discussion of events that will permit acceleration of the payment of the principal of and accrued interest on the bonds, see “Description of the First Mortgage Bonds—Defaults and Other Provisions” in the base prospectus.

Trading

The bonds will not be listed on any securities exchange or included in any quotation system.

Trustee, Transfer Agent and Book Entry Depositary

The Bank of New York Mellon Trust Company, N.A.

Paying Agent and Calculation Agent

The Bank of New York Mellon Trust Company, N.A.
RISK FACTORS

Investing in the bonds involves risk. You should be aware of and carefully consider the following risk factors and the risk factors included in our Annual Report on Form 10-K for the year ended December 31, 2020. You should also read and consider all of the other information provided or incorporated by reference in this prospectus supplement and the related base prospectus before deciding whether or not to purchase any of the bonds. See “Forward-Looking Statements” in this prospectus supplement and “Where You Can Find More Information” in the base prospectus.

Risks Relating to the Bonds

You may be unable to sell your bonds if a trading market for the bonds does not develop.

The bonds will be new securities for which there is currently no established trading market, and none may develop. We do not intend to apply for listing of the bonds on any securities exchange or for quotation on any automated dealer quotation system. The liquidity of any market for the bonds will depend on the number of holders of the bonds, the interest of securities dealers in making a market in the bonds, and other factors. Accordingly, we cannot assure you as to the development or liquidity of any market for the bonds. If an active trading market does not develop, the market price and liquidity of the bonds may be adversely affected. If the bonds are traded, they may trade at a discount from their initial offering price depending upon prevailing interest rates, the market for similar securities, general economic conditions, our performance and business prospects, and certain other factors.

You might not be able to fully realize the value of the liens securing the bonds.

The security for the benefit of the holders of the bonds can be released without their consent.

Any part of the property that is subject to the lien of the first mortgage bond indenture for the benefit of the bonds may be released at any time with the consent of holders of 80% in amount of all first mortgage bonds issued and outstanding under the indenture (excluding any bonds owned or controlled by us). A class vote or consent of the holders of the bonds would not be required.

You may have only limited ability to control remedies with respect to the collateral.

Upon the occurrence of an event of default under the first mortgage bond indenture, the trustees have the right to exercise remedies against the collateral securing the bonds. The trustees shall take any action if requested to do so by the holders of a majority in interest of the first mortgage bonds then outstanding under the first mortgage bond indenture and if indemnified to the trustees’ reasonable satisfaction. Thus, you may not be able to exercise any control over the trustees’ exercise of remedies unless you can obtain the consent of holders of a majority of the total amount of first mortgage bonds outstanding.

The collateral might not be valuable enough to satisfy all the obligations secured by the collateral.

Our obligations under the bonds are secured by the pledge of substantially all of our property and franchises. This pledge is also for the benefit of all holders of other series of our first mortgage bonds. The value of the pledged assets in the event of a liquidation will depend upon market and economic conditions, the availability of buyers, and similar factors. No independent appraisals of any of the pledged property have been prepared by us or on our behalf in connection with this offering. Although our first mortgage bond indenture only allows us to issue first mortgage bonds with an aggregate principal amount at any time outstanding in an amount no greater than 66 2/3% of the aggregate value of our bondable assets, because no appraisals have been performed in connection with this offering, we cannot assure you that the proceeds of any sale of the pledged assets following an acceleration of maturity of the bonds would be sufficient to satisfy amounts due on the bonds and the other debt secured by the pledged assets.
To the extent the proceeds of any sale of the pledged assets were not sufficient to repay all amounts due on your bonds, you would have only an unsecured claim against our remaining assets. By their nature, some or all of the pledged assets might be illiquid and might have no readily ascertainable market value. Likewise, we cannot assure you that the pledged assets would be saleable or that there would not be substantial delays in their liquidation.

In addition, the first mortgage bond indenture permits us to issue additional secured debt, including debt secured equally and ratably by the same assets pledged to secure your bonds. This could reduce amounts payable to you from the proceeds of any sale of the collateral.

**Bankruptcy laws could limit your ability to realize value from the collateral.**

The right of the indenture trustees to repossess and dispose of the pledged assets upon the occurrence of an event of default under the first mortgage bond indenture is likely to be significantly impaired by applicable bankruptcy law if a bankruptcy case were to be commenced by or against us before the indenture trustees repossessed and disposed of the pledged assets. Under Title 11 of the United States Code (the “Bankruptcy Code”), a secured creditor is prohibited from repossessing its security from a debtor in a bankruptcy case, or from disposing of security repossessed from such debtor, without bankruptcy court approval. Moreover, the Bankruptcy Code permits the debtor to continue to retain and to use collateral, including capital stock, even though the debtor is in default under the applicable debt instruments, provided that the secured creditor is given “adequate protection.” In view of the lack of a precise definition of the term “adequate protection” and the broad discretionary powers of a bankruptcy court, it is impossible to predict (1) how long payments under the bonds could be delayed following commencement of a bankruptcy case, (2) whether or when the indenture trustee could repossess or dispose of the pledged assets or (3) whether or to what extent holders of the bonds would be compensated for any delay in payment or loss of value of the pledged assets through the requirement of “adequate protection.”

**The ability of the indenture trustees to effectively liquidate the collateral and the value received could be impaired or impeded by the need to obtain regulatory consents.**

While we have all necessary consents to grant the security interests created by the first mortgage bond indenture, any foreclosure thereon could require additional approvals that have not been obtained from California or federal regulators. We cannot assure you that these approvals could be obtained by the indenture trustees on a timely basis or at all.

**Risks Relating to the Floating Rate Bonds**

The Secured Overnight Financing Rate (“SOFR”) is a relatively new reference rate and its composition and characteristics are not the same as the London Inter-Bank Offered Rate (“LIBOR”).

On June 22, 2017, the Alternative Reference Rates Committee (“ARRC”) convened by the Board of Governors of the Federal Reserve System and the Federal Reserve Bank of New York identified the SOFR as the rate that, in the consensus view of the ARRC, represented best practice for use in certain new U.S. dollar derivatives and other financial contracts. SOFR is a broad measure of the cost of borrowing cash overnight collateralized by U.S. Treasury securities, and has been published by the Federal Reserve Bank of New York since April 2018. The Federal Reserve Bank of New York has also begun publishing historical indicative Secured Overnight Financing Rates from 2014. Investors should not rely on any historical changes or trends in SOFR as an indicator of future changes in SOFR.

The composition and characteristics of SOFR are not the same as those of LIBOR, and SOFR is fundamentally different from LIBOR for two key reasons. First, SOFR is a secured rate, while LIBOR is an
unsecured rate. Second, SOFR is an overnight rate, while LIBOR is a forward-looking rate that represents interbank funding over different maturities (e.g., three months). As a result, there can be no assurance that SOFR (including Compounded SOFR) will perform in the same way as LIBOR would have at any time, including, without limitation, as a result of changes in interest and yield rates in the market, market volatility or global or regional economic, financial, political, regulatory, judicial or other events.

**SOFR may be more volatile than other benchmark or market rates.**

Since the initial publication of SOFR, daily changes in SOFR have, on occasion, been more volatile than daily changes in other benchmark or market rates, such as U.S. dollar LIBOR. Although changes in Compounded SOFR generally are not expected to be as volatile as changes in daily levels of SOFR, the return on and value of the Floating Rate Bonds may fluctuate more than floating rate debt securities that are linked to less volatile rates. In addition, the volatility of SOFR has reflected the underlying volatility of the overnight U.S. Treasury repo market. The Federal Reserve Bank of New York has at times conducted operations in the overnight U.S. Treasury repo market in order to help maintain the federal funds rate within a target range. There can be no assurance that the Federal Reserve Bank of New York will continue to conduct such operations in the future, and the duration and extent of any such operations is inherently uncertain. The effect of any such operations, or of the cessation of such operations to the extent they are commenced, is uncertain and could be materially adverse to investors in the Floating Rate Bonds.

**Any failure of SOFR to gain market acceptance could adversely affect the Floating Rate Bonds.**

According to the ARRC, SOFR was developed for use in certain U.S. dollar derivatives and other financial contracts as an alternative to U.S. dollar LIBOR in part because it is considered a good representation of general funding conditions in the overnight U.S. Treasury repurchase agreement market. However, as a rate based on transactions secured by U.S. Treasury securities, it does not measure bank-specific credit risk and, as a result, is less likely to correlate with the unsecured short-term funding costs of banks. This may mean that market participants would not consider SOFR a suitable replacement or successor for all of the purposes for which U.S. dollar LIBOR historically has been used (including, without limitation, as a representation of the unsecured short-term funding costs of banks), which may, in turn, lessen market acceptance of SOFR. Any failure of SOFR to gain market acceptance could adversely affect the return on and value of the Floating Rate Bonds and the price at which investors can sell the Floating Rate Bonds in the secondary market.

In addition, if SOFR does not prove to be widely used as a benchmark in securities that are similar or comparable to the Floating Rate Bonds, the trading price of the Floating Rate Bonds may be lower than those of securities that are linked to rates that are more widely used. Similarly, market terms for floating-rate debt securities linked to SOFR, such as the spread over the base rate reflected in interest rate provisions or the manner of compounding the base rate, may evolve over time, and trading prices of the Floating Rate Bonds may be lower than those of later-issued SOFR-based debt securities as a result. Investors in the Floating Rate Bonds may not be able to sell the Floating Rate Bonds at all or may not be able to sell the Floating Rate Bonds at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

**The interest rate on the Floating Rate Bonds is based on a Compounded SOFR rate and the SOFR Index, both of which are relatively new in the marketplace.**

For each interest period (as defined below), the interest rate on the Floating Rate Bonds is based on Compounded SOFR, which is calculated using the SOFR Index (as defined below) published by the Federal Reserve Bank of New York according to the specific formula described under “Certain Terms of the Bonds—Interest and Maturity—Floating Rate Bonds—Compounded SOFR,” not the SOFR rate published on or in respect of a particular date during such interest period or an arithmetic average of SOFR rates during such period. For this and other reasons, the interest rate on the Floating Rate Bonds during any interest period will not
necessarily be the same as the interest rate on other SOFR-linked investments that use an alternative basis to
determine the applicable interest rate. Further, if the SOFR rate in respect of a particular date during an interest
period is negative, its contribution to the SOFR Index will be less than one, resulting in a reduction to
Compounded SOFR used to calculate the interest payable on the Floating Rate Bonds on the Floating Rate
Interest Payment Date (as defined below) for such interest period.

Very limited market precedent exists for securities that use SOFR as the interest rate and the method for
calculating an interest rate based upon SOFR in those precedents varies. In addition, the Federal Reserve Bank of
New York only began publishing the SOFR Index on March 2, 2020. Accordingly, the use of the SOFR Index or
the specific formula for the Compounded SOFR rate used in the Floating Rate Bonds may not be widely adopted
by other market participants, if at all. If the market adopts a different calculation method, that would likely
adversely affect the liquidity and market value of the Floating Rate Bonds.

**Compounded SOFR with respect to a particular interest period will only be capable of being determined
near the end of the relevant interest period.**

The level of Compounded SOFR applicable to a particular interest period and, therefore, the amount of
interest payable with respect to such interest period will be determined on the Interest Payment Determination
Date (as defined below) for such interest period. Because each such date is near the end of such interest period,
you will not know the amount of interest payable with respect to a particular interest period until shortly prior to
the related Floating Rate Interest Payment Date and it may be difficult for you to reliably estimate the amount of
interest that will be payable on each such Floating Rate Interest Payment Date. In addition, some investors may
be unwilling or unable to trade the Floating Rate Bonds without changes to their information technology systems.
An inability to reliably estimate accrued and unpaid interest as well as potential need for some investors to
change their information technology systems could both adversely impact the liquidity and trading price of the
Floating Rate Bonds.

**The SOFR Index may be modified or discontinued and the Floating Rate Bonds may bear interest by
reference to a rate other than Compounded SOFR, which could adversely affect the value of the Floating
Rate Bonds.**

The SOFR Index is published by the Federal Reserve Bank of New York based on data received by it from
sources other than SCE, and SCE has no control over its methods of calculation, publication schedule, rate
revision practices or availability of the SOFR Index at any time. There can be no guarantee, particularly given its
relatively recent introduction, that the SOFR Index will not be discontinued or fundamentally altered in a manner
that is materially adverse to the interests of investors in the Floating Rate Bonds. If the manner in which the
SOFR Index is calculated, including the manner in which SOFR is calculated, is changed, that change may result
in a reduction in the amount of interest payable on the Floating Rate Bonds and the trading prices of the Floating
Rate Bonds. In addition, the Federal Reserve Bank of New York may withdraw, modify or amend the published
SOFR Index or SOFR data in its sole discretion and without notice. The interest rate for any interest period will
not be adjusted for any modifications or amendments to the SOFR Index or SOFR data that the Federal Reserve
Bank of New York may publish after the interest rate for that interest period has been determined.

If SCE (or its designee (which may be an independent financial advisor or any other designee of SCE (any
of such entities, a “Designee”)) determines that a Benchmark Transition Event and its related Benchmark
Replacement Date (each as defined below) have occurred in respect of the SOFR Index, then the interest rate on
the Floating Rate Bonds will no longer be determined by reference to the SOFR Index, but instead will be
determined by reference to a different rate, plus a spread adjustment, which is referred to as a “Benchmark
Replacement”, as further described under the caption “Certain Terms of the Bonds—Interest and
Maturity—Floating Rate Bonds—Effect of Benchmark Transition Event.”
If a particular Benchmark Replacement (as defined below) or Benchmark Replacement Adjustment (as defined below) cannot be determined, then the next-available Benchmark Replacement or Benchmark Replacement Adjustment will apply. These replacement rates and adjustments may be selected, recommended or formulated by (i) the Relevant Governmental Body (as defined below) (such as the ARRC), (ii) the International Swaps and Derivatives Association (“ISDA”) or (iii) in certain circumstances, SCE (or its Designee). In addition, the terms of the Floating Rate Bonds expressly authorize SCE (or its Designee) to make Benchmark Replacement Conforming Changes (as defined below) with respect to, among other things, changes to the definition of “interest period”, the timing and frequency of determining rates and making payments of interest, rounding of amounts or tenors, and other administrative matters. The determination of a Benchmark Replacement, the calculation of the interest rate on the Floating Rate Bonds by reference to a Benchmark Replacement (including the application of a Benchmark Replacement Adjustment), any implementation of Benchmark Replacement Conforming Changes and any other determinations, decisions or elections that may be made under the terms of the Floating Rate Bonds in connection with a Benchmark Transition Event, could adversely affect the value of the Floating Rate Bonds, the return on the Floating Rate Bonds and the price at which you can sell such Floating Rate Bonds.

In addition, (i) the composition and characteristics of the Benchmark Replacement will not be the same as those of Compounded SOFR, the Benchmark Replacement may not be the economic equivalent of Compounded SOFR, there can be no assurance that the Benchmark Replacement will be a comparable substitute for Compounded SOFR (each of which means that a Benchmark Transition Event could adversely affect the value of the Floating Rate Bonds, the return on the Floating Rate Bonds and the price at which you can sell the Floating Rate Bonds), (ii) any failure of the Benchmark Replacement to gain market acceptance could adversely affect the Floating Rate Bonds, (iii) the Benchmark Replacement may have a very limited history and the future performance of the Benchmark Replacement may not be predicted based on historical performance, (iv) the secondary trading market for Floating Rate Bonds linked to the Benchmark Replacement may be limited and (v) the administrator of the Benchmark Replacement may make changes that could change the value of the Benchmark Replacement or discontinue the Benchmark Replacement and has no obligation to consider your interests in doing so.

SCE (or its Designee) will make certain determinations with respect to the Floating Rate Bonds, which determinations may adversely affect the Floating Rate Bonds.

SCE (or its Designee) will make certain determinations with respect to the Floating Rate Bonds as further described under “Certain Terms of the Bonds—Interest and Maturity—Floating Rate Bonds.” For example, if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred, SCE (or its Designee) will make certain determinations with respect to the Floating Rate Bonds in its (or its Designee’s) sole discretion as further described under the caption “Certain Terms of the Bonds—Interest and Maturity—Floating Rate Bonds.” Any determination, decision or election pursuant to the benchmark replacement provisions not made by SCE’s Designee will be made by SCE. Any of these determinations may adversely affect the value of the Floating Rate Bonds, the return on the Floating Rate Bonds and the price at which you can sell such Floating Rate Bonds. Moreover, certain determinations may require the exercise of discretion and the making of subjective judgments, such as with respect to Compounded SOFR or the occurrence or non-occurrence of a Benchmark Transition Event and any Benchmark Replacement Conforming Changes. These potentially subjective determinations may adversely affect the value of the Floating Rate Bonds, the return on the Floating Rate Bonds and the price at which you can sell such Floating Rate Bonds. For further information regarding these types of determinations, see “Certain Terms of the Bonds—Interest and Maturity—Floating Rate Bonds.”
USE OF PROCEEDS

We intend to use the net proceeds from the offering of the bonds to fund the payment of wildfire claims above the amount of expected insurance proceeds, including settlement amounts to be paid under a settlement agreement entered into on January 22, 2021 between SCE and all insurance subrogation plaintiffs in litigation regarding the “Woolsey Fire” that originated on November 8, 2018 in Ventura County, as discussed in more detail in our Annual Report on Form 10-K for the year ended December 31, 2020. We also intend to use the net proceeds from the offering of the bonds to repay commercial paper borrowings that were used to fund the payment of such wildfire claims. The current weighted average interest rate of our commercial paper borrowings is approximately 0.31%.
CERTAIN TERMS OF THE BONDS

The following description of the particular terms of the bonds supplements the description of the general terms and provisions of the first mortgage bonds set forth in the accompanying prospectus.

General

The bonds will be issued as additional series of our secured debt securities issued under a Trust Indenture, dated as of October 1, 1923, between us and The Bank of New York Mellon Trust Company, N.A. and D. G. Donovan, as trustees, as amended and supplemented by supplemental indentures, the One Hundred Forty-Sixth Supplemental Indenture, to be dated as of March 29, 2021 (which we refer to collectively as the “first mortgage bond indenture”). The following summary of the first mortgage bond indenture is subject to all of the provisions of the first mortgage bond indenture.

Payments of principal and interest on the bonds issued in book-entry form will be made as described under the caption “Book-Entry, Delivery, and Form” below.

The bonds will be issued only in fully registered form, without coupons, in denominations of $1,000 or any integral multiple of $1,000.

Interest and Maturity

Floating Rate Bonds

The Floating Rate Bonds are initially limited to $400,000,000 in principal amount for the Floating Rate 2023 Bonds and $400,000,000 in principal amount for the Floating Rate 2024 Bonds. The Floating Rate 2023 Bonds will mature on April 3, 2023 and the Floating Rate 2024 Bonds will mature on April 1, 2024. The Floating Rate Bonds will bear interest from April 1, 2021, payable on January 1, April 1, July 1 and October 1, beginning on July 1, 2021 (each, a “Floating Rate Interest Payment Date”). The Floating Rate Bonds will bear interest at an annual rate equal to Compounded SOFR, determined as described below, plus 0.64% (0.64%, the “2023 Margin”) for the Floating Rate 2023 Bonds and Compounded SOFR, determined as described below, plus 0.83% (0.83%, the “2024 Margin” and, together with the 2023 Margin, the “Margins”) for the Floating Rate 2024 Bonds.

The record date for interest payable on any Floating Rate Interest Payment Date shall be the close of business on (1) the business day immediately preceding such Floating Rate Interest Payment Date so long as all of the Floating Rate Bonds remain in book-entry only form, or (2) the 15th calendar day immediately preceding such Floating Rate Interest Payment Date if any of the Floating Rate Bonds do not remain in book-entry only form. See “—Book-Entry Only Issuance.” Interest on the Floating Rate Bonds will accrue from and including the date of original issuance to but excluding the first Floating Rate Interest Payment Date. Starting on the first Floating Rate Interest Payment Date, interest on each Floating Rate Bond will accrue from and including the last Floating Rate Interest Payment Date to which SCE has paid, or duly provided for the payment of, interest on that Floating Rate Bond to but excluding the next succeeding Floating Rate Interest Payment Date. No interest will accrue on a Floating Rate Bond for the day that the Floating Rate Bond matures. The amount of interest payable for any period will be computed on the basis of a 360-day year and the actual number of days in the Observation Period (as defined below).

If any Floating Rate Interest Payment Date falls on a day that is not a business day, as defined below, SCE will make the interest payment on the next succeeding business day unless that business day is in the next
succeeding calendar month, in which case (other than in the case of the maturity date or the redemption date) SCE will make the interest payment on the immediately preceding business day. If an interest payment is made on the next succeeding business day, no interest will accrue as a result of the delay in payment. If the maturity date or the redemption date of the Floating Rate Bonds falls on a day that is not a business day, the payment due on such date will be postponed to the next succeeding business day, and no further interest will accrue in respect of such postponement.

As further described herein, on each Interest Payment Determination Date relating to the applicable Floating Rate Interest Payment Date, the calculation agent (as defined below) will calculate the amount of accrued interest payable on the Floating Rate Bonds by multiplying (i) the outstanding principal amount of the Floating Rate Bonds by (ii) the product of (a) the interest rate for the relevant interest period multiplied by (b) the quotient of the actual number of calendar days in such Observation Period divided by 360. In no event will the interest on the Floating Rate Bonds be less than zero.

The term “interest period”, with respect to the Floating Rate Bonds, means the period commencing on any Floating Rate Interest Payment Date (or, with respect to the initial interest period only, commencing on the date of original issuance) to, but excluding, the next succeeding Floating Rate Interest Payment Date, and, in the case of the last such period, from and including the Floating Rate Interest Payment Date immediately preceding the maturity date or, in connection with a redemption of the Floating Rate 2024 Bonds (as described under “— Optional Redemption), the redemption date to but excluding the maturity date or redemption date (if applicable).

Compounded SOFR and the SOFR Index

The Secured Overnight Financing Rate (SOFR) is published by the Federal Reserve Bank of New York and is intended to be a broad measure of the cost of borrowing cash overnight collateralized by U.S. Treasury securities.

The SOFR Index is published by the Federal Reserve Bank of New York and measures the cumulative impact of compounding SOFR on a unit of investment over time, with the initial value set to 1.00000000 on April 2, 2018, the first value date of SOFR. The SOFR Index value reflects the effect of compounding SOFR each business day and allows the calculation of compounded SOFR averages over custom time periods.

The Federal Reserve Bank of New York notes on its publication page for the SOFR Index that use of the SOFR Index is subject to important limitations, indemnification obligations and disclaimers, including that the Federal Reserve Bank of New York may alter the methods of calculation, publication schedule, rate revision practices or availability of the SOFR Index at any time without notice. The interest rate for any interest period will not be adjusted for any modifications or amendments to the SOFR Index or SOFR data that the Federal Reserve Bank of New York may publish after the interest rate for that interest period has been determined.

Compounded SOFR. “Compounded SOFR” will be determined by the calculation agent in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point):

\[
\left( \frac{SOFR_{\text{IndexEnd}}}{SOFR_{\text{IndexStart}}} - 1 \right) \times \frac{360}{d_i}
\]

where:

“SOFR Index\text{Start}” = For periods other than the initial interest period, the SOFR Index value on the preceding Interest Payment Determination Date, and, for the initial interest period, the SOFR Index value two U.S. Government Securities Business Days before the date of original issuance;

S-15
“SOFR Index_{end}” = The SOFR Index value on the Interest Payment Determination Date relating to the applicable Floating Rate Interest Payment Date (or, in the final interest period, relating to the applicable maturity date or redemption date); and

“d,” is the number of calendar days in the relevant Observation Period.

For purposes of determining Compounded SOFR:

“Interest Payment Determination Date” means the date two U.S. Government Securities Business Days before each Floating Rate Interest Payment Date.

“Observation Period” means (i), in respect of each interest period, the period from, and including, the date that is two U.S. Government Securities Business Days preceding the first date in such interest period to, but excluding, the date that is two U.S. Government Securities Business Days preceding the Floating Rate Interest Payment Date for such interest period (or in the final interest period, preceding the applicable maturity date) and (ii), in respect of the payment of any interest in connection with a redemption of the Floating Rate 2024 Bonds (as described under “—Optional Redemption), the period from, and including, the date that is two U.S. Government Securities Business Days preceding the first date in the interest period in which such redemption occurs to, but excluding, the date that is two U.S. Government Securities Business Days before such redemption.

“SOFR Index” means, with respect to any U.S. Government Securities Business Day:

1. the SOFR Index value as published by the SOFR Administrator (as defined below) as such index appears on the SOFR Administrator’s Website at 3:00 p.m. (New York time) on such U.S. Government Securities Business Day (the “SOFR Index Determination Time”); provided that:

2. if a SOFR Index value does not so appear as specified in (1) above at the SOFR Index Determination Time, then: (i) if a Benchmark Transition Event and its related Benchmark Replacement Date have not occurred with respect to SOFR, then Compounded SOFR shall be the rate determined pursuant to the “SOFR Index Unavailable Provisions” described below; or (ii) if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to SOFR, then Compounded SOFR shall be the rate determined pursuant to the “Effect of Benchmark Transition Event” provisions described below.

“SOFR” means the daily secured overnight financing rate as provided by the SOFR Administrator on the SOFR Administrator’s Website.

“SOFR Administrator” means the Federal Reserve Bank of New York (or a successor administrator of SOFR).

“SOFR Administrator’s Website” means the website of the Federal Reserve Bank of New York, currently at http://www.newyorkfed.org, or any successor source.

“U.S. Government Securities Business Day” means any day except for a Saturday, a Sunday or a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

Notwithstanding anything to the contrary in the documentation relating to the Floating Rate Bonds, if SCE (or its Designee) determines on or prior to the relevant Reference Time (as defined below) that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to determining Compounded SOFR, then the benchmark replacement provisions set forth below under “Effect of Benchmark Transition Event” will thereafter apply to all determinations of the rate of interest payable on the Floating Rate Bonds.

For the avoidance of doubt, in accordance with the benchmark replacement provisions, after a Benchmark Transition Event and its related Benchmark Replacement Date have occurred, the interest rate for each interest period on the Floating Rate Bonds will be an annual rate equal to the sum of the Benchmark Replacement and the applicable Margin.
**SOFR Index Unavailable Provisions.** If a SOFR Index\textsubscript{Start} or SOFR Index\textsubscript{End} is not published on the associated Interest Payment Determination Date and a Benchmark Transition Event and its related Benchmark Replacement Date have not occurred with respect to SOFR, “Compounded SOFR” means, for the applicable interest period for which such index is not available, the rate of return on a daily compounded interest investment calculated in accordance with the formula for SOFR Averages, and definitions required for such formula, published on the SOFR Administrator’s Website at https://www.newyorkfed.org/markets/treasury-repo-reference-rates-information. For the purposes of this provision, references in the SOFR Averages compounding formula and related definitions to “calculation period” shall be replaced with “Observation Period” and the words “that is, 30-, 90-, or 180- calendar days” shall be removed. If SOFR does not so appear for any day, “i” in the Observation Period, SOFR\textsubscript{i} for such day “i” shall be SOFR published in respect of the first preceding U.S. Government Securities Business Day for which SOFR was published on the SOFR Administrator’s Website.

**Effect of Benchmark Transition Event**

**Benchmark Replacement**

If we (or our Designee) determine that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any determination of the Benchmark on any date, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the Floating Rate Bonds in respect of such determination on such date and all determinations on all subsequent dates.

**Benchmark Replacement Conforming Changes**

In connection with the implementation of a Benchmark Replacement, we (or our Designee) will have the right to make Benchmark Replacement Conforming Changes from time to time.

**Decisions and Determinations**

Any determination, decision or election that may be made by us (or our Designee) pursuant this subsection “Effect of Benchmark Transition Event,” including any determination with respect to tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, will be conclusive and binding absent manifest error, will be made in our (or our Designee’s) sole discretion, and, notwithstanding anything to the contrary in any documentation relating to the Floating Rate Bonds, shall become effective without consent from the holders of the Floating Rate Bonds or any other party. **Certain Defined Terms**

As used in this subsection “Effect of Benchmark Transition Event,” the following terms have the following meanings:

“Benchmark” means, initially, Compounded SOFR, as such term is defined above; provided that if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to Compounded SOFR (or the published SOFR Index used in the calculation thereof) or the then-current Benchmark, then “Benchmark” means the applicable Benchmark Replacement.

“Benchmark Replacement” means the first alternative set forth in the order below that can be determined by us (or our Designee) as of the Benchmark Replacement Date:

1. the sum of: (a) the alternate rate of interest that has been selected or recommended by the Relevant Governmental Body as the replacement for the then-current Benchmark and (b) the Benchmark Replacement Adjustment;
2. the sum of: (a) the ISDA Fallback Rate and (b) the Benchmark Replacement Adjustment; and
3. the sum of: (a) the alternate rate of interest that has been selected by us (or our Designee) as the replacement for the then-current Benchmark giving due consideration to any industry-accepted rate of
interest as a replacement for the then-current Benchmark for U.S. dollar denominated floating rate notes at such time and (b) the Benchmark Replacement Adjustment.

“Benchmark Replacement Adjustment” means the first alternative set forth in the order below that can be determined by us (or our Designee) as of the Benchmark Replacement Date:

1. the spread adjustment, or method for calculating or determining such spread adjustment, (which may be positive or negative value or zero) that has been selected or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;

2. if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, then the ISDA Fallback Adjustment; and

3. the spread adjustment (which may be a positive or negative value or zero) that has been selected by us (or our Designee) giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark with the applicable Unadjusted Benchmark Replacement for U.S. dollar denominated floating rate notes at such time.

The Benchmark Replacement Adjustment shall not include the Margins specified in this prospectus supplement and such Margin shall be applied to the Benchmark Replacement to determine the interest payable on the Floating Rate Bonds.

“Benchmark Replacement Conforming Changes” means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including changes to the definition or interpretation of “interest period”, timing and frequency of determining rates and making payments of interest, rounding of amounts or tenor, and other administrative matters), or any other changes to any other terms or provisions of the bonds, in each case that we (or our Designee) decide may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if we (or our Designee) decide that adoption of any portion of such market practice is not administratively feasible or if we (or our Designee) determine that no market practice for use of the Benchmark Replacement exists, in such other manner as we (or our Designee) determine is reasonably necessary or practicable).

“Benchmark Replacement Date” means the earliest to occur of the following events with respect to the then-current Benchmark:

1. in the case of clause (1) or (2) of the definition of “Benchmark Transition Event,” the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of the Benchmark permanently or indefinitely ceases to provide the Benchmark; or

2. in the case of clause (3) of the definition of “Benchmark Transition Event,” the date of the public statement or publication of information referenced therein.

For the avoidance of doubt, if the event giving rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination.

“Benchmark Transition Event” means the occurrence of one or more of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

1. a public statement or publication of information by or on behalf of the administrator of the Benchmark (or such component) announcing that such administrator has ceased or will cease to provide the Benchmark (or such component), permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component);
(2) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark (or such component), the central bank for the currency of the Benchmark (or such component), an insolvency official with jurisdiction over the administrator for the Benchmark (or such component), a resolution authority with jurisdiction over the administrator for the Benchmark (or such component) or a court or an entity with similar insolvency or resolution authority over the administrator for the Benchmark (or such component), which states that the administrator of the Benchmark (or such component) has ceased or will cease to provide the Benchmark (or such component) permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component); or

(3) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark announcing that the Benchmark is no longer representative.

“ISDA Definitions” means the 2006 ISDA Definitions published by the International Swaps and Derivatives Association, Inc. or any successor thereto, as amended or supplemented from time to time, or any successor definitional booklet for interest rate derivatives published from time to time.

“ISDA Fallback Adjustment” means the spread adjustment (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the Benchmark.

“ISDA Fallback Rate” means the rate that would apply for derivatives transactions referencing the ISDA Definitions to be effective upon the occurrence of an index cessation date with respect to the Benchmark for the applicable tenor excluding the applicable ISDA Fallback Adjustment.

“Reference Time” with respect to any determination of the Benchmark means (1) if the Benchmark is Compounded SOFR, the SOFR Index Determination Time, as such time is defined above, and (2) if the Benchmark is not Compounded SOFR, the time determined by SCE (or its Designee) in accordance with the Benchmark Replacement Conforming Changes.

“Relevant Governmental Body” means the Federal Reserve Board and/or the Federal Reserve Bank of New York, or a committee officially endorsed or convened by the Federal Reserve Board and/or the Federal Reserve Bank of New York or any successor thereto.

“Unadjusted Benchmark Replacement” means the Benchmark Replacement excluding the Benchmark Replacement Adjustment.

Calculation of the Floating Interest Rate

The “calculation agent” means a banking institution or trust company appointed by us to act as calculation agent, initially The Bank of New York Mellon.

Absent willful misconduct, bad faith or manifest error, the calculation of the applicable interest rate for each interest period by the calculation agent, or in certain circumstances described above, by us (or our Designee) will be final and binding on us, the indenture trustee, and the holders of the Floating Rate Bonds.

None of the indenture trustee, paying agent, registrar or calculation agent shall be under any obligation (i) to monitor, determine or verify the unavailability or cessation of SOFR or the SOFR Index, or whether or when there has occurred, or to give notice to any other transaction party of the occurrence of, any Benchmark Transition Event or related Benchmark Replacement Date, (ii) to select, determine or designate any Benchmark Replacement, or other successor or replacement benchmark index, or whether any conditions to the designation of such a rate or index have been satisfied, (iii) to select, determine or designate any Benchmark Replacement
Adjustment, or other modifier to any replacement or successor index, or (iv) to determine whether or what
Benchmark Replacement Conforming Changes are necessary or advisable, if any, in connection with any of the
foregoing.

None of the indenture trustee, paying agent, registrar or calculation agent shall be liable for any inability,
failure or delay on its part to perform any of its duties described in this prospectus supplement and the
accompanying prospectus as a result of the unavailability of SOFR, the SOFR Index or other applicable
Benchmark Replacement, including as a result of any failure, inability, delay, error or inaccuracy on the part of
any other transaction party in providing any direction, instruction, notice or information contemplated by this
prospectus supplement and the accompanying prospectus and reasonably required for the performance of such
duties.

**Fixed Rate Bonds**

The Fixed Rate Bonds are initially limited to $350,000,000 in principal amount for the Fixed Rate 2023
Bonds and $700,000,000 in principal amount for the Fixed Rate 2024 Bonds. The Fixed Rate Bonds will bear
interest from April 1, 2021 at 0.70% per annum for the Fixed Rate 2023 Bonds and at 1.10% per annum for the
Fixed Rate 2024 Bonds, payable in both cases semi-annually on April 1 and October 1 of each year, beginning on
October 1, 2021. The Fixed Rate 2023 Bonds will mature on April 3, 2023 and the Fixed Rate 2024 Bonds will
mature on April 1, 2024.

**General**

The amount of interest payable on the bonds for any period will be computed on the basis of a 360-day year
consisting of twelve 30-day months, provided that the amount of interest payable for any period shorter or longer
than a full interest period will be computed on the basis of a 360-day year consisting of twelve 30-day months
and the actual number of days elapsed in the period using 30-day months.

If the date of maturity or any interest payment date of the bonds falls on a day that is not a business day, the
related payment of principal and/or interest will be made on the next business day as if it were made on the date
that the payment was due, and no interest will accrue with respect to such postponement.

**Record Dates**

The record date for interest payable on the bonds on any interest payment date will be the close of business
on the business day immediately preceding the interest payment date so long as the bonds remain in book-entry
only form, or on the 15th calendar day before each interest payment date if bonds do not remain in book-entry
only form. See “—Book-Entry, Delivery, and Form” below.

**Further Issues**

No additional first mortgage bonds may be issued if any event of default has occurred with respect to such
series of first mortgage bonds. We may from time to time, without notice to or the consent of the holders of the
bonds, issue additional first mortgage bonds in the future. Further, we may from time to time, without notice to
or the consent of the holders of the relevant series of bonds, create and issue further bonds equal in rank and
having the same maturity, payment terms, redemption features, CUSIP numbers and other terms as the relevant
series of bonds offered by this prospectus supplement, except for public offering price, payment of interest
accruing prior to the issue date of the further bonds, and under some circumstances, the first payment of interest
following the issue date of the further bonds. These further bonds may be consolidated and form a single series
with the bonds offered by this prospectus supplement.
As of December 31, 2020, we had $18.5 billion of first mortgage bonds outstanding (including $751.9 million of first mortgage bonds issued to secure pollution control bonds). As of December 31, 2020, we had the capacity to issue approximately $18.8 billion of additional first mortgage bonds on the basis of first mortgage bonds previously acquired, redeemed, or otherwise retired and the net amount of additional property acquired by us and not previously used for the issuance of first mortgage bonds or other purposes under the first mortgage bond indenture. The first mortgage bond indenture’s net earnings coverage test provides that additional first mortgage bonds may not be issued unless our net earnings (as defined in the first mortgage bond indenture) for a period of twelve months ending no more than 60 days prior to the delivery of the bonds shall have been at least two and one-half (2.5x) times our total annual first mortgage bond interest charge. Under the net earnings test, the amount of additional first mortgage bonds we currently could issue is approximately $25.7 billion (based on net earnings as of December 31, 2020, and not taking into account the issuance of the bonds). See “Description of the First Mortgage Bonds—Issue of Additional Bonds” in the base prospectus.

Optional Redemption

At any time on or after April 1, 2023 (the “Par Call Redemption Date”), we may at our option redeem the Floating Rate 2024 Bonds and/or the Fixed Rate 2024 Bonds, as applicable, in whole or in part, at a redemption price equal to 100% of the principal amount of the bonds being redeemed plus accrued and unpaid interest thereon to but excluding the date of redemption.

To exercise our option to redeem any the Floating Rate 2024 Bonds and/or the Fixed Rate 2024 Bonds, we will give you a notice in writing (including by facsimile transmission or electronic mail) of redemption at least 30 days but not more than 60 days prior to the date fixed for redemption. If we elect to redeem fewer than all the bonds in the relevant series, The Bank of New York Mellon Trust Company, N.A., as trustee, will select the particular Floating Rate 2024 Bonds and/or the Fixed Rate 2024 Bonds, as applicable, to be redeemed by lot; provided, however, that as long as the bonds are held with a depositary, any such selection shall be in accordance with such depositary’s applicable procedures.

Any notice of redemption, at our option, may state that the redemption will be conditional upon receipt by the paying agent, on or prior to the date fixed for the redemption, of money sufficient to pay the principal, premium, if any, and interest, if any, on the bonds and that if the money has not been so received, the notice will be of no force and effect and we will not be required to redeem the bonds.

Book-Entry, Delivery, and Form

Each series of bonds will be represented by one or more permanent global bonds in definitive, fully registered form without interest coupons. Upon issuance, the bonds will be deposited with The Bank of New York Mellon Trust Company, N.A., as trustee, as custodian for The Depository Trust Company in New York, New York (which we refer to as “DTC”), and registered in the name of DTC or its nominee.

Ownership of beneficial interests in a global bond will be limited to persons who have accounts with DTC, which we refer to as “participants,” or persons who hold interests through participants. Ownership of beneficial interests in a global bond will be shown on, and the transfer of that ownership will be effected only through, records maintained by DTC or its nominee (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants).

You may elect to hold interests in a global bond either in the United States through DTC or outside the United States through Clearstream Banking, société anonyme (“Clearstream”), or Euroclear Bank, S.A./N.V., or its successor, as operator of the Euroclear System (“Euroclear”), if you are a participant of such system, or indirectly through organizations that are participants in such systems. Interests held through Clearstream and Euroclear will be recorded on DTC’s books as being held by the U.S. depositary for each of Clearstream and
Euroclear, which U.S. depositaries will in turn hold interests on behalf of their participants’ customers’ securities accounts.

So long as DTC, or its nominee, is the registered owner or holder of any of the bonds, DTC or that nominee, as the case may be, will be considered the sole owner or holder of such bonds represented by the global bond for all purposes under the first mortgage bond indenture and the bonds. No beneficial owner of an interest in a global bond will be able to transfer such interest except in accordance with DTC’s applicable procedures, in addition to those provided for under the first mortgage bond indenture.

Payments of the principal of, and interest on, a global bond will be made to DTC or its nominee, as the case may be, as the registered owner thereof. None of the trustees, any paying agent, or we will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a global bond or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

We expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of a global bond, will credit participants’ accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such global bond as shown on the records of DTC or its nominee. We also expect that payments by participants to owners of beneficial interests in such global bond held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

We expect that transfers between participants in DTC will be effected in the ordinary way in accordance with DTC rules and procedures and will be settled in same-day funds. Secondary market trading between Clearstream participants and/or Euroclear system participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and the Euroclear system, as applicable.

Transfers between participants in DTC will be effected in the ordinary way in accordance with DTC rules and procedures and will be settled in same-day funds.

We expect that DTC will take any action permitted to be taken by a holder of bonds only at the direction of one or more participants to whose account the DTC interests in a global bond is credited and only in respect of such portion of the aggregate principal amount of bonds as to which such participant or participants has or have given such direction. However, if there is an event of default under the bonds, DTC will exchange the applicable global bond for certificated bonds, which it will distribute to its participants.

A global bond is exchangeable for definitive bonds in registered certificate form if:

- DTC (i) notifies us that it is unwilling or unable to continue as depositary for the global bonds, and we fail to appoint a successor depositary, or (ii) has ceased to be a clearing agency registered under the Securities Exchange Act of 1934, as amended;
- at our option, we notify the trustees in writing that we have elected to cause the issuance of the certificated securities; or
- there has occurred and is continuing a default or event of default with respect to the bonds.

In addition, beneficial interests in a global bond may be exchanged for certificated securities upon prior written notice given to the trustees by or on behalf of DTC in accordance with the first mortgage bond indenture.

In all cases, certificated securities delivered in exchange for any global bond or beneficial interests in global bonds will be registered in the names, and issued in any approved denominations, requested by or on behalf of
the depositary (in accordance with its customary procedures). Certificated securities may be presented for registration, transfer and exchange at The Bank of New York Mellon Trust Company, N.A., Chicago, Illinois, or the office or agency designated for such purpose.

DTC has advised us that: DTC is a limited purpose trust company organized under the laws of the State of New York, a “banking organization” within the meaning of New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the Uniform Commercial Code and a “Clearing Agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies and certain other organizations that clear through or maintain a custodial relationship with a participant, either directly or indirectly, whom we refer to as indirect participants.

Although DTC is expected to follow the foregoing procedures in order to facilitate transfers of interests in a global bond among participants of DTC, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the trustees, the paying agent, or we will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

**Same Day Settlement and Payment**

We will make payments in respect of the bonds represented by the global bonds (including principal, interest and premium, if any) by wire transfer of immediately available funds to the accounts specified by the global bondholder. We will make all payments of principal, interest and premium with respect to certificated securities by wire transfer of immediately available funds to the accounts specified by the holders thereof or, if no account is specified, by mailing a check to that holder’s registered address. The exchange bonds represented by the global bonds are expected to trade in DTC’s Same Day Funds Settlement System, and any permitted secondary market trading activity in the exchange bonds will, therefore, be required by DTC to be settled in immediately available funds. We expect that secondary trading in any certificated securities will also be settled in immediately available funds.

**Global Clearance and Settlement Procedures**

Cross-market transfers between persons holding directly or indirectly through DTC on the one hand, and directly or indirectly through Clearstream participants or Euroclear system participants on the other, will be effected through DTC in accordance with DTC rules on behalf of the relevant European international clearing system by its U.S. depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering or receiving securities in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream participants and Euroclear system participants may not deliver instructions directly to their respective U.S. depositaries.

Because of time-zone differences, credits of bonds received in Clearstream or the Euroclear system as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits or any transactions in such bonds settled during such processing will be reported to the relevant Euroclear system participant or Clearstream participant on such business day. Cash received in Clearstream or the Euroclear system as a result of sales of the
bonds by or through a Clearstream participant or a Euroclear system participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream or the Euroclear system cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of debt securities among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be discontinued at any time.
UNDERWRITING

Barclays Capital Inc., BNP Paribas Securities Corp., Mizuho Securities USA LLC and MUFG Securities Americas Inc. (collectively, the “Representatives”), together with BMO Capital Markets Corp. and Truist Securities, Inc., are acting as representatives of the underwriters named below and as joint book-running managers of the offering.

Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus supplement, each underwriter named below has severally agreed to purchase, and we have agreed to sell to that underwriter, the principal amount of bonds set forth opposite the underwriter’s name.

The underwriting agreement provides that the obligations of the underwriters to purchase the bonds included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are severally obligated to purchase all the bonds if they purchase any of the bonds.

The underwriters propose to offer the bonds directly to the public at the applicable public offering price set forth on the cover page of this prospectus supplement and may offer the bonds to dealers at the applicable public offering price less a concession not to exceed 0.15% of the principal amount of the Floating Rate 2023 Bonds, not to exceed 0.20% of the principal amount of the Floating Rate 2024 Bonds, not to exceed 0.15% of the principal amount of the Fixed Rate 2023 Bonds and not to exceed 0.20% of the principal amount of the Fixed Rate 2024 Bonds. The underwriters may allow, and dealers may reallow, a concession not to exceed 0.10% of the principal amount of the Floating Rate 2023 Bonds, not to exceed 0.125% of the principal amount of the Floating Rate 2024 Bonds, not to exceed 0.10% of the principal amount of the Fixed Rate 2023 Bonds and not to exceed 0.125% of the principal amount of the Fixed Rate 2024 Bonds on sales to other dealers. After the initial offering of the bonds to the public, the Representatives may change the public offering prices.

The following table summarizes the underwriting discounts to be paid by us to the underwriters in connection with this offering:

In connection with the offering, the Representatives, on behalf of the underwriters, may purchase and sell bonds in the open market. These transactions may include over-allotment, syndicate covering transactions, and stabilizing transactions. Over-allotment involves syndicate sales of bonds in excess of the principal amount of bonds to be purchased by the underwriter in the offering, which creates a syndicate short position. Syndicate covering transactions involve purchases of the bonds in the open market after the distribution has been completed in order to cover syndicate short positions. Stabilizing transactions consist of certain bids or purchases of bonds made for the purpose of preventing or retarding a decline in the market price of the bonds while the offering is in progress.

The underwriters also may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the Representatives, in covering syndicate short positions or making stabilizing purchases, repurchase bonds originally sold by or for the account of that syndicate member.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the bonds. They may also cause the price of the bonds to be higher than the price that otherwise would exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our total expenses for this offering, excluding the underwriting discounts, will be $3,900,000 and will be payable by us.

Certain of the underwriters are dealers on our commercial paper program and, from time to time, make a market in or hold our commercial paper. Such underwriters may receive some of the proceeds of this offering if we repay commercial paper they hold. Certain of the underwriters and their affiliates have performed investment banking, commercial banking and advisory services for us and our affiliates from time to time for which they have received customary fees and expenses. The underwriters and their affiliates may, from time to time, engage in transactions with and perform services for us and our affiliates in the ordinary course of their business.

We expect delivery of the bonds will be made against payment therefor on or about April 1, 2021, which is the sixth business day after the date of this prospectus supplement. Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in two business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the bonds on the date of this prospectus supplement or on the next three succeeding business days will be required, by virtue of the fact that the bonds initially will not settle in T+2, to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement and should consult their own advisor.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve our securities and instruments or those of our affiliates. If any of the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the bonds offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the bonds offered hereby. The underwriters and their respective affiliates may also make investment
recommendations or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long or short positions in such securities and instruments.

**Selling Restrictions**

No action has been or will be taken by us that would permit a public offering of the bonds, or possession or distribution of this prospectus supplement or the accompanying base prospectus or any other offering or publicity material relating to the bonds, in any country or jurisdiction outside the United States where, or in any circumstances in which, action for that purpose is required. Accordingly, the bonds may not be offered or sold, directly or indirectly, and this prospectus supplement, the accompanying base prospectus and any other offering or publicity material relating to the bonds may not be distributed or published, in or from any country or jurisdiction outside the United States except under circumstances that will result in compliance with applicable laws and regulations.

**Canada**

The bonds may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 *Prospectus Exemptions* or subsection 73.3(1) of the *Securities Act* (Ontario), and are permitted clients, as defined in National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*. Any resale of the bonds must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus supplement (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 *Underwriting Conflicts* (“NI 33-105”), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

**European Economic Area**

The bonds are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “MiFID II”); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the “Insurance Distribution Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “PRIIPs Regulation”). For the purpose of this provision, the expression “an offer” includes the communication in any form and by any means of sufficient information on the terms of the offer and the bonds to be offered so as to enable an investor to decide to purchase or subscribe for the bonds. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the bonds or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the bonds or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation. This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of bonds in any Member State of the EEA will be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of bonds. This prospectus supplement and the accompanying prospectus are not a prospectus for the purposes of the Prospectus Regulation.
**United Kingdom**

In addition, in the United Kingdom (the “UK”), this document is being distributed only to, and is directed only at, and any offer subsequently made may only be directed at persons who are “qualified investors” (as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018) (i) who have professional experience in matters relating to investments falling within Article 19 (5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the “Order”) and/or (ii) who are high net worth companies (or persons to whom it may otherwise be lawfully communicated) falling within Article 49(2)(a) to (e) of the Order (all such persons together being referred to as “relevant persons”). This document must not be acted on or relied on in the UK by persons who are not relevant persons. In the UK, any investment or investment activity to which this document relates is only available to, and will be engaged in with, relevant persons.

**Hong Kong**

The bonds have not been and will not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32 of the Laws of Hong Kong) (the “C(WUMP)O”), or (ii) to “professional investors” as defined in the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) (the “SFO”) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a “prospectus” within the meaning of the C(WUMP)O and no advertisement, invitation or document relating to the bonds have been or will be issued or have been or will be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to the bonds which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the SFO and any rules made thereunder.

**Japan**

The bonds have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948 as amended, the “Financial Instruments and Exchange Act”) and each underwriter has represented and agreed that it has not offered or sold and will not offer or sell any bonds, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (as defined under Item 5, Paragraph 1, Article 6 of the Foreign Exchange and Foreign Trade Act (Act No. 228 of 1949, as amended)), or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the benefit of, a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Act and any other applicable laws, regulations and ministerial guidelines of Japan.

**Singapore**

This prospectus supplement and the accompanying prospectus have not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the bonds have not been and will not be circulated or distributed, nor have the bonds been or will the bonds be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”), (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA, in each case subject to compliance with conditions set forth in the SFA.
Where the bonds are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

- a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

securities (as defined in Section 2(1) of the SFA) or securities-based derivatives contracts (as defined in Section 2(1) of the SFA) of that corporation or the beneficiaries’ rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the bonds pursuant to an offer made under Section 275 of the SFA except:

- to an institutional investor or to a relevant person defined in Section 275(2) of the SFA, or to any person arising from an offer referred to in Section 275(1A) or Section 276(4)(i)(B) of the SFA;
- where no consideration is or will be given for the transfer;
- where the transfer is by operation of law;
- as specified in Section 276(7) of the SFA; or
- as specified in Regulation 37A of the Securities and Futures (Offers of Investments) (Securities and Securities-based Derivatives Contracts) Regulations 2018.

Any reference to the SFA is a reference to the Securities and Futures Act, Chapter 289 of Singapore and a reference to any term as defined in the SFA or any provision in the SFA is a reference to that term as modified or amended from time to time including by such of its subsidiary legislation as may be applicable at the relevant time.

Singapore SFA Product Classification—In connection with Section 309B of the SFA and the CMP Regulations 2018, unless otherwise specified before an offer of bonds, we have determined, and hereby notify all persons (including all relevant persons (as defined in Section 309A(1) of the SFA)), that the bonds are “prescribed capital markets products” (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

**Switzerland**

Neither this prospectus supplement nor any other offering or marketing material relating to the bonds constitutes a prospectus as such term is understood pursuant to article 652a or article 1156 of the Swiss Code of Obligations or a listing prospectus within the meaning of the listing rules of the SIX Swiss Exchange or any other regulated trading facility in Switzerland, and neither this prospectus supplement nor any other offering or marketing material relating to the bonds may be publicly distributed or otherwise made publicly available in Switzerland.

**Taiwan**

The bonds have not been and will not be registered with the Financial Supervisory Commission of Taiwan, the Republic of China (“Taiwan”), pursuant to relevant securities laws and regulations and may not be offered or sold in Taiwan through a public offering or in any manner which would constitute an offer within the meaning of the Securities and Exchange Act of Taiwan or would otherwise require registration with or the approval of the Financial Supervisory Commission of Taiwan. No person or entity in Taiwan has been authorized to offer or sell the bonds in Taiwan.

**People’s Republic of China (excluding Hong Kong, Macau and Taiwan)**

The bonds are not being offered or sold and may not be offered or sold, directly or indirectly, in the People’s Republic of China, or the “PRC” (for such purposes, not including the Hong Kong and Macau Special Administrative Regions or Taiwan), except as permitted by all relevant laws and regulations of the PRC.
This prospectus supplement and the accompanying base prospectus (i) have not been filed with or approved by the PRC authorities and (ii) do not constitute an offer to sell, or the solicitation of an offer to buy, any bonds in the PRC to any person to whom it is unlawful to make the offer of solicitation in the PRC.

The bonds may not be offered, sold or delivered, or offered, sold or delivered to any person for reoffering or resale or redelivery, in any such case directly or indirectly (i) by means of any advertisement, invitation, document or activity which is directed at, or the contents of which are likely to be accessed or read by, the public in the PRC, or (ii) to any person within the PRC, other than in full compliance with the relevant laws and regulations of the PRC.

Investors in the PRC are responsible for obtaining all relevant government regulatory approvals/licenses, verification and/or registrations themselves, including, but not limited to, those which may be required by the China Securities Regulatory Commission, the State Administration of Foreign Exchange and/or the China Banking Regulatory Commission, and complying with all relevant PRC laws and regulations, including, but not limited to, all relevant foreign exchange regulations and/or securities investment regulations.

Republic of Korea

The bonds have not been and will not be registered under the Financial Investment Services and Capital Markets Act and the decrees and regulations thereunder (the “FSCMA”) and the bonds have been and will be offered in Korea as a private placement under the FSCMA. None of the bonds may be offered, sold and delivered, directly or indirectly, or offered or sold to any person for re-offering or resale, directly or indirectly, in Korea or to any resident of Korea except as otherwise permitted under the applicable laws and regulations of Korea, including the FSCMA and the Foreign Exchange Transaction Law of Korea and the decrees and regulations thereunder (the “FETL”). For a period of one year from the issue date of the bonds, any acquirer of the bonds who was solicited to buy the bonds in Korea is prohibited from transferring any of the bonds to another person in any way other than as a whole to one transferee. Furthermore, the purchaser of the bonds shall comply with all applicable regulatory requirements (including but not limited to requirements under the FETL) in connection with the purchase of the bonds.

United Arab Emirates

This prospectus supplement and the accompanying base prospectus have not been reviewed, approved or licensed by the Central Bank of the United Arab Emirates (the “UAE”), the Emirates Securities and Commodities Authority (the “SCA”) or any other relevant licensing authority in the UAE including any licensing authority incorporated under the laws and regulations of any of the free zones established and operating in the UAE including, without limitation, the Dubai Financial Services Authority (the “DFSA”), a regulatory authority of the Dubai International Financial Centre (the “DIFC”).

This prospectus supplement and the accompanying base prospectus are not intended to, and do not, constitute an offer, sale or delivery of shares or other securities under the laws of the UAE. Each underwriter has represented and agreed that the bonds have not been and will not be registered with the SCA or the UAE Central Bank, the Dubai Financial Market, the Abu Dhabi Securities Market or any other UAE regulatory authority or exchange.

The issue and/or sale of the bonds has not been approved or licensed by the SCA, the UAE Central Bank or any other relevant licensing authority in the UAE, and does not constitute a public offer of securities in the UAE in accordance with the Commercial Companies Law, Federal Law No. 1 of 2015 (as amended) or otherwise, does not constitute an offer in the UAE in accordance with the Board Decision No. 37 of 2012 Concerning the Regulation of Investment Funds (whether by a Foreign Fund, as defined therein, or otherwise), and further does not constitute the brokerage of securities in the UAE in accordance with the Board Decision No. 27 of 2014 Concerning Brokerage in Securities.
LEGAL MATTERS

Michael A. Henry, our Assistant General Counsel, will pass upon the legality of the bonds for us. Certain legal matters will be passed upon for the underwriters by Cleary Gottlieb Steen & Hamilton LLP, New York, New York.
SOUTHERN CALIFORNIA EDISON COMPANY

First and Refunding Mortgage Bonds, Debt Securities, $100 Cumulative Preferred Stock, Cumulative Preferred Stock and Preference Stock

The securities may be offered and sold from time to time in one or more offerings. This prospectus provides you with a general description of the securities that may be offered.

Each time securities are sold, a supplement to this prospectus that contains specific information about the offering and the terms of the securities will be provided. The prospectus supplement may also add, update or change information contained in this prospectus. You should carefully read this prospectus and any prospectus supplement for the specific offering before you invest in any of the securities.

The securities may be sold to or through underwriters, dealers or agents or directly to other purchasers. A prospectus supplement will set forth the names of any underwriters, dealers or agents involved in the sale of the securities, the principal amounts of securities to be purchased by them, and the compensation they will receive.

Southern California Edison Company may offer and sell first and refunding mortgage bonds, debt securities, $100 cumulative preferred stock, cumulative preferred stock and preference stock.

This prospectus may be used to offer and sell securities only if accompanied by the prospectus supplement for those securities.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this Prospectus is July 27, 2018

ABOUT THIS PROSPECTUS

This prospectus is provided by Southern California Edison Company which is sometimes referred to in this prospectus as “Southern California Edison” or by the terms “we,” “us” and “our.” We refer to the $100 cumulative preferred stock and cumulative preferred stock together as “preferred stock” and the preferred stock and preference stock together as “preferred equity.”

This prospectus is part of a “shelf” registration statement filed with the United States Securities and Exchange Commission. By using a shelf registration statement, we may sell any combination of the securities described in this prospectus from time to time in one or more offerings. This prospectus only provides you with a general description of the securities that we may offer. Each time we sell securities, we will provide a supplement to this prospectus that contains specific information about the terms of the securities. The supplement may also add, delete, update or change information contained in this prospectus. You should rely on the information in the applicable prospectus supplement if this prospectus and the prospectus supplement are inconsistent. Before purchasing any securities, you should carefully read both this prospectus and any applicable supplement, together with the additional information described under the heading “Where You Can Find More Information.”

We are responsible only for the information contained and incorporated by reference in this prospectus, any prospectus supplement, and in any related free-writing prospectus we prepare or authorize. We have not authorized any other person to provide you with any other information, and we do not take any responsibility for any other information that others may provide you. We will not make an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information appearing or incorporated by reference in this prospectus, any prospectus supplement, and any related free-writing prospectus is accurate only as of their respective dates. Our business, financial condition, results of operations and prospects may have changed since those dates.

FORWARD-LOOKING STATEMENTS

This prospectus, any accompanying prospectus supplement and the additional information described under the heading “Where You Can Find More Information” may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The words “believes,” “expects,” “anticipates,” “intends,” “plans,” “estimates,” “projects,” “probable,” “may,” “will,” “could,” “would,” “should,” and variations of such words and similar expressions, or discussions of strategy or of plans, are intended to identify forward-looking statements. Such statements necessarily involve risks and uncertainties that could cause actual results to differ materially from those anticipated. Some of the risks, uncertainties and other important factors that could cause results to differ, or that otherwise could impact us are described under the headings “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017, and in subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K incorporated by reference into this prospectus.

We urge you to read this entire prospectus, including any prospectus supplement and the information incorporated by reference, and carefully consider the risks, uncertainties and other factors that affect our business. Forward-looking statements speak only as of the date they are made and we are not obligated to publicly update or revise forward-looking statements. You should review future reports we file with the Securities and Exchange Commission.

SOUTHERN CALIFORNIA EDISON COMPANY

Southern California Edison is an investor-owned public utility, primarily engaged in the business of supplying and delivering electricity to an approximately 50,000 square mile area of southern California, excluding the City of Los Angeles and certain other cities. We own and operate transmission, distribution and generation facilities for the purpose of serving our customers’ electricity needs. In addition to power provided
from our own generating resources, we procure power from a variety of sources including other utilities and
merchant and other non-utility generators. Based in Rosemead, California, Southern California Edison was
incorporated in California in 1909, and had assets of more than $11 billion at June 30, 2018.

Southern California Edison is a subsidiary of Edison International, a holding company with subsidiaries
involved in both electric utility and non-electric utility businesses. The mailing address and telephone number of
our principal executive offices are 2244 Walnut Grove Avenue, P.O. Box 800, Rosemead, CA 91770 and (626)
302-1212.

USE OF PROCEEDS

Except as otherwise described in a prospectus supplement, we intend for the net proceeds of the offered
securities to be used to redeem, repay or retire outstanding debt or other securities, to finance construction
expenditures, for other general corporate purposes, or to reduce short-term debt incurred to finance such
activities.

RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED EQUITY DIVIDENDS

The following table sets forth the ratios of Southern California Edison’s earnings to combined fixed charges
and preferred stock dividends and to fixed charges, for each year in the five-year period ended December 31,
2017 and for the six months ended June 30, 2018:

DESCRIPTION OF THE SECURITIES

The following is a general description of the terms and provisions of the securities we may offer and sell by
this prospectus in one or more distinct offerings. These summaries are not meant to be a complete description
of each security. This prospectus and any accompanying prospectus supplement will contain the material terms
and conditions for each security. The prospectus supplement may add, update or change the terms and conditions
of the securities as described in this prospectus. For more information about the securities, please refer to:

• the indenture between Southern California Edison and The Bank of New York Mellon Trust Company,
  N.A., and D. G. Donovan, as successor trustees, dated as of October 21, 1923, as amended and
  supplemented, for the issuance of first and refunding mortgage bonds, which we refer to as the “first
  mortgage bond indenture” in this prospectus;
• the indenture between Southern California Edison and The Bank of New York Mellon Trust Company,
  N.A., as successor trustee, dated as of January 15, 1993, for the issuance of senior debt securities,
  which we refer to as the “senior indenture” in this prospectus;
• the form of indenture between Southern California Edison and Bank of New York Mellon Trust
  Company, N.A., as trustee, for the issuance of subordinated debt securities, which we refer to as the
  “subordinated indenture” in this prospectus; and
• Southern California Edison’s restated articles of incorporation.
We have filed or incorporated by reference forms or copies of these documents as exhibits to the registration statement. In this prospectus we sometimes refer to the senior indenture and subordinated indenture together as the “unsecured indentures” and each separately as an “unsecured indenture.” We refer to each trustee for each indenture as the “indenture trustee.” The first mortgage bond indenture and the unsecured indentures are governed by the Trust Indenture Act of 1939 and may be supplemented or amended from time to time. The senior indenture and the subordinated indenture are substantially similar, but differ in some important respects. The material differences between the senior indenture and the subordinated indenture are set forth in the description below under “Description of the Debt Securities.”

**DESCRIPTION OF THE FIRST MORTGAGE BONDS**

The following description discusses the general terms and provisions of the first and refunding mortgage bonds that we may offer by this prospectus in one or more distinct offerings. In this prospectus, we refer to the first and refunding mortgage bonds as “first mortgage bonds” or “bonds.” The first mortgage bonds will be an additional series of our secured debt securities created by resolution of our board of directors or the executive committee of the board, or by an action of one or more of our authorized officers, and will be issued under the first mortgage bond indenture, as amended and supplemented by supplemental indentures.

The first mortgage bond indenture gives us broad authority to set the particular terms of each series of first mortgage bonds, including the right to modify certain of the terms contained in the first mortgage bond indenture. The particular terms of a series of bonds and the extent, if any, to which the particular terms of the issue modify the terms of the first mortgage bond indenture will be described in the prospectus supplement relating to the bonds.

The first mortgage bond indenture contains the full legal text of the matters described in this section. Because this section is a summary, it does not describe every aspect of the first mortgage bonds or the first mortgage bond indenture. This summary is subject to and qualified by all the provisions of the first mortgage bond indenture, including definitions of terms used in the first mortgage bond indenture. Therefore, you should read carefully the detailed provisions of the first mortgage bond indenture, which we have incorporated by reference as an exhibit to the registration statement that includes this prospectus. This summary also is subject to and qualified by the description in the applicable prospectus supplement of the particular terms of the first mortgage bonds and any applicable supplemental indenture.

**General**

Before issuing each series of first mortgage bonds, we will specify the terms of that series through a board or executive committee resolution or officer action and a supplemental indenture. The applicable prospectus supplement will contain a description of the following terms, among others, of each series of first mortgage bonds:

- the title of the bonds;
- any limit on the aggregate principal amount of the bonds of that series;
- the price at which the bonds will be issued;
- the date or dates on which principal will be payable or how to determine the dates;
- the rate or rates or method of determining interest; the date or dates from which interest will accrue; the dates on which interest will be payable, which we refer to as the “interest payment dates;” and any record dates for the interest payable on the interest payment dates;
- the place or places where payments on the bonds will be made;
• any obligation or option on our part to redeem, purchase or repay bonds; any option of the holder to require us to redeem or repurchase bonds; and the terms and conditions upon which the bonds will be redeemed, purchased or repaid;

• the denominations in which the bonds will be issued;

• whether the bonds are to be issued in whole or in part in the form of one or more global bonds and, if so, the identity of the depositary for the global bonds;

• whether the bonds are to be issued in whole or in part in the form of one or more global debt securities and, if so, the identity of the depositary for the global debt securities;

• if other than United States dollars, the currency or currencies in which the bonds will be denominated and principal and interest will be payable;

• any index used to determine the amount of payments of principal of and any premium and interest on the bonds;

• any deletions, modifications or additions to the covenants or events of default provided for the bonds;

• whether the bonds are subject to discharge and defeasance at our option; and

• any other terms of the bonds.

Security

The first mortgage bonds when issued, will, as to the security afforded by the first mortgage bond indenture, be secured equally and ratably with all other first mortgage bonds by a legally valid first lien or charge on substantially all of the property and franchises now owned by us (with exceptions and exclusions noted below). Such lien and our title to our properties are subject to the terms of franchises, licenses, easements, leases, permits, contracts and other instruments under which properties are held or operated, statutes and governmental regulations, liens for taxes and assessments, and liens of the indenture trustees. In addition, such liens and our title to our properties are subject to other liens, prior rights and other encumbrances, none of which, with minor or insubstantial exceptions affects from a legal standpoint the security for the first mortgage bonds or our rights to use such properties in our business.

The first mortgage bond indenture provides that property hereafter acquired (other than excepted kinds noted below) will become subject to the lien of the first mortgage bond indenture. Such property may be subject to prior liens and other encumbrances.

Properties excepted from the lien of the first mortgage bond indenture include cash, accounts receivable, deposits, bills and notes, contracts, leases under which we are lessor, securities not specifically required to be pledged, office equipment, vehicles, and all materials, supplies and electric energy acquired or produced for sale, consumption or use in the ordinary conduct of business.

Special Trust Fund

We are required to deposit in a special trust fund with The Bank of New York Mellon Trust Company, N.A., as trustee, on each May 1 and November 1, cash equal to 1 1/2% (subject to redetermination by agreement between us and The Bank of New York Mellon Trust Company, N.A., as trustee) of the aggregate principal amount of the first mortgage bonds and underlying bonds then outstanding (excluding certain bonds and underlying bonds, such as bonds called for redemption), less certain amounts paid or credited in respect of underlying bonds. The term “underlying bonds” is defined in the first mortgage bond indenture to mean any bonds or other evidence of indebtedness secured by property subsequently acquired by us. Amounts in the special trust fund may, in general, be paid out for payment, redemption (at the redemption prices, including applicable premiums, set forth in the first mortgage bonds and subject to the limitation on refunding applicable to various
series) or purchase of first mortgage or underlying bonds, or to reimburse us for the acquisition of certain additional properties. The foregoing deposit requirement has not affected our cash flow, because the cash deposited has been simultaneously offset by its payment to us to reimburse us for the acquisition of additional properties. Thus, there currently are no funds on deposit in the Special Trust Fund.

**Issue of Additional Bonds**

In general, additional Bonds, ranking equally and ratably with the first mortgage bonds, may be issued, subject to certain restrictions and requirements described below, in principal amounts equal to the lesser of (i) the amount authorized under the net earnings test described below and (ii) the sum of the following:

a. Certain bonds and underlying bonds acquired, redeemed or otherwise retired.
b. Cash deposited to pay or redeem Bonds or underlying bonds.
c. \( \frac{66 \frac{2}{3}}{3} \) of the net amount of additional property constructed or acquired by us and not theretofore used for other purposes under the first mortgage bond indenture, subject to certain restrictions.
d. Cash deposited in an advance construction account with The Bank of New York Mellon Trust Company, N.A., as trustee (in certain events with such trustee’s consent), to be withdrawn to reimburse us for \( \frac{66 \frac{2}{3}}{3} \) of unbonded additional property.

As of June 30, 2018, there were no first mortgage bonds acquired, redeemed or otherwise retired against which bonds might be issued under the first mortgage bond indenture pursuant to clause (a) above. The net amount of additional property against which bonds might be issued under the first mortgage bond indenture pursuant to clause (c) above was approximately $28.3 billion, resulting in the ability to issue $18.9 billion of Bonds pursuant to clause (c) \( (i.e. \frac{28.3\text{ billion}}{.6666} = \$18.9\text{ billion}) \). The aggregate amount of bonds which we could issue under clauses (a) and (c) above would, if other conditions were met, be approximately $18.9 billion. As of June 30, 2018, we had $12.4 billion of our first mortgage bonds outstanding (including the first mortgage bonds issued to secure $751.9 million of pollution control bonds).

Furthermore, in addition to the first mortgage bond indenture’s bondable property requirement described in clause (c) above, the first mortgage bond indenture also provides that additional first mortgage bonds may not be issued unless our net earnings (as defined) for twelve months shall have been at least two and one-half (2.5x) times our total annual first mortgage bond interest charge. At June 30, 2018, under the net earnings test we could issue $20.4 billion of additional first mortgage bonds (based on net earnings for the year ended June 30, 2018). Notwithstanding the net earnings requirement, additional first mortgage bonds may be issued under the provisions referred to in (a) and (b) above under some circumstances involving, among other things, issuance of bonds not bearing a higher interest rate than the bonds to be retired, issuance of bonds to pay or redeem bonds maturing within two years and issuance of bonds on the basis of acquisition, redemption or other retirement of underlying bonds. Additional first mortgage bonds may not be issued under the provisions referred to in paragraphs (c) and (d) above during any period when indebtedness secured by a prior lien on acquired utility property has not been established as underlying bonds.

Other than the security afforded by the lien of the first mortgage bond indenture and restrictions on the issuance of additional bonds described above, there are no provisions of the first mortgage bond indenture which afford holders of the first mortgage bonds protection against us increasing our ratio of total debt to total “bondable” assets.

**Defaults and Other Provisions**

The first mortgage bond indenture provides that the following are defaults:

- default in payment of principal;
• default for 60 days in payment of interest or satisfaction of the special trust fund obligation;
• default under our covenants and conditions in the first mortgage bond indenture or in the bonds for
  60 days after written notice by The Bank of New York Mellon Trust Company, N.A., as trustee;
• certain acts of bankruptcy and certain events in bankruptcy, insolvency, receivership or reorganization
  proceedings; and
• our failure to discharge or stay within 60 days any judgment against us for the payment of money in
  excess of $100,000.

A California court may not strictly enforce certain of our covenants contained in the first mortgage bond
indenture or the first mortgage bonds or allow acceleration of the due date of the first mortgage bonds if it
concludes that such enforcement or acceleration would be unreasonable under the then existing circumstances.
However, we believe that acceleration would be available if an event of default occurs as a result of a material
breach of a material covenant contained in the first mortgage bond indenture or the first mortgage bonds.

The first mortgage bond indenture and the Trust Indenture Act of 1939 require us to file with an indenture
trustee documents and reports with respect to the absence of default and compliance with the terms of the first
mortgage bond indenture annually and upon the authentication and delivery of additional first mortgage bonds,
the release of cash or property, the satisfaction and discharge of the first mortgage bond indenture, or any other
action requested to be taken by an indenture trustee at our request.

The holders of a majority in principal amount of outstanding first mortgage bonds may require the indenture
trustees to enforce the lien of the first mortgage bond indenture upon the happening (and continuance for the
prescribed grace period, if any) of any of the defaults referred to above, and upon the indemnification of the
indenture trustees to their reasonable satisfaction.

Concerning the Trustees

The Bank of New York Mellon Trust Company, N.A., and certain of its affiliates act as trustees for our
senior debt securities and certain pollution control bonds issued on our behalf. The Bank of New York Mellon
Trust Company, N.A., also is the trustee under an indenture under which our parent, Edison International, may
issue debt securities in the future. We maintain bank deposits with The Bank of New York and may borrow
money from the bank from time to time.

Neither by the first mortgage bond indenture nor otherwise are the indenture trustees restricted from dealing
in the first mortgage bonds as freely as though they were not indenture trustees. However, the Trust Indenture
Act provides that if either indenture trustee acquires or has acquired a conflicting interest, as defined in the Trust
Indenture Act, and a default under the first mortgage bond indenture occurs or has occurred, such indenture
trustee must within 90 days following the default eliminate such conflict, cure the default or resign. The Trust
Indenture Act provides that an indenture trustee with an uncured conflict of interest will not be required to resign
if it can show that the conflict will be cured or the default waived within a reasonable time and a stay of its duty
to resign is not inconsistent with the interests of the holders of the outstanding bonds. In certain cases, the first
mortgage bond indenture and the Trust Indenture Act require an indenture trustee to share the benefit of
payments received as a creditor after the beginning of the third month prior to a default.

Modification of the Indenture

The holders of 80% in principal amount of all first mortgage bonds outstanding may authorize release of
trust property, waive defaults and authorize certain modifications of the first mortgage bond indenture proposed
by us and consented to by the indenture trustee. However, our obligation to pay principal and interest will
continue unimpaired; and such modifications may not include, among other things, modifications giving any
bonds preference over other bonds or authorizing any lien prior to that of the first mortgage bond indenture. In addition, modifications of rights of any series require the assent of the holders of 80% in principal amount of the bonds of such series.

Global Securities

We may issue first mortgage bonds of any series in whole or in part in the form of one or more global securities that will be deposited with, or on behalf of, a depositary identified in the prospectus supplement relating to that series. Global securities may be issued in either registered or bearer form and in either temporary or permanent form. Unless and until it is exchanged in whole or in part for individual certificates evidencing first mortgage bonds in definitive form, a global security may not be transferred except as a whole by the depositary for that global security to a nominee of that depositary or by a nominee of that depositary to that depositary or another nominee of that depositary or by that depositary or that nominee to a successor of that depositary or a nominee of that successor. We will describe the specific terms of the depositary arrangement for a series of first mortgage bonds in the prospectus supplement relating to that series.

DESCRIPTION OF THE DEBT SECURITIES

The following description discusses the general terms and provisions of the debt securities other than first mortgage bonds that we may offer by this prospectus in one or more distinct offerings. We may issue the debt securities as senior debt securities or subordinated debt securities. The indebtedness represented by the senior debt securities will rank equally with all other unsecured and unsubordinated debt of Southern California Edison. The indebtedness represented by the subordinated debt securities will rank junior and be subordinate in right of payment to the prior payment in full of the senior debt of Southern California Edison, to the extent and in the manner set forth in the applicable prospectus supplement for the securities. (See “Subordination” below.)

At June 30, 2018, Southern California Edison had approximately $12.4 billion of senior secured indebtedness that effectively would rank senior to any senior debt securities and approximately $300 million of indebtedness that would be pari passu with any senior debt securities. As described above under “Description of the First Mortgage Bonds,” our first mortgage bonds are issued under and secured by the first mortgage bond indenture, which creates a lien on substantially all the properties of Southern California Edison for the benefit of the holders of the first mortgage bonds. The debt securities other than first mortgage bonds that we are offering by this prospectus are not secured by any assets or property of Southern California Edison.

The unsecured indentures give us broad authority to set the particular terms of each series of debt securities, including the right to modify certain of the terms contained in the indentures. The particular terms of a series of debt securities and the extent, if any, to which the particular terms of the issue modify the terms of the unsecured indenture will be described in the prospectus supplement relating to the debt securities.

Each unsecured indenture contains the full legal text of the matters described in this section. Because this section is a summary, it does not describe every aspect of the debt securities or the applicable indenture. This summary is subject to and qualified by all the provisions of the applicable indenture, including definitions of terms used in any such indenture. Therefore, you should read carefully the detailed provisions of the unsecured indentures, which we have incorporated by reference as exhibits to the registration statement that includes this prospectus. This summary also is subject to and qualified by the description of the particular terms of the debt securities in the applicable prospectus supplement.

General

We may issue an unlimited amount of debt securities under each unsecured indenture in one or more series, up to the aggregate principal amounts that may be authorized by us from time to time.
The debt securities will be unsecured obligations of Southern California Edison.

Before issuing each series of debt securities, we will specify the terms of that series through a board resolution, officers’ certificate or supplemental indenture. The applicable prospectus supplement will contain a description of the following terms, among others, of each series of debt securities:

- the title of the debt securities;
- any limit on the aggregate principal amount of the debt securities of that series;
- the price at which the debt securities will be issued;
- the date or dates on which principal will be payable or how to determine the dates;
- the rate or rates or method of determining interest; the date or dates from which interest will accrue; the dates on which interest will be payable, which we refer to as the “interest payment dates;” any record dates for the interest payable on the interest payment dates; and any special provisions for the payment of additional amounts with respect to the debt securities;
- the place or places where payments on the debt securities will be made;
- any obligation or option on our part to redeem, purchase or repay debt securities; any option of the holder to require us to redeem or repurchase debt securities; and the terms and conditions upon which the debt securities will be redeemed, purchased or repaid;
- any provision for deferral of interest payments;
- the denominations in which the debt securities will be issued (if other than denominations of $1,000 and any integral multiple thereof);
- whether the debt securities are to be issued in whole or in part in the form of one or more global debt securities and, if so, the identity of the depositary for the global debt securities;
- if other than United States dollars, the currency or currencies in which the debt securities will be denominated and principal and interest will be payable;
- any index used to determine the amount of payments of principal of and any premium and interest on the debt securities;
- any deletions, modifications or additions to the covenants or events of default provided for the debt securities;
- whether the debt securities are subject to discharge and defeasance at our option; and
- any other terms of the debt securities.

In addition, we will set forth in the prospectus supplement for any offering of subordinated debt securities the following terms to the extent they are applicable:

- any right to extend the interest payment periods;
- whether the series of subordinated debt securities will be junior in right of payment to any other series; and
- any changes in the subordination provisions of the subordinated indenture with respect to the series.

We may also issue debt securities as original issue discount securities to be offered and sold at a substantial discount below their stated principal amount. We will describe in a prospectus supplement the federal income tax consequences and other special considerations applicable to any original issue discount securities.
Form of Debt Securities

We may issue the senior debt securities and subordinated debt securities only as registered securities. We also may issue the debt securities of a series in whole or in part in the form of one or more global securities, as described below under the heading “Global Securities.” Unless we specify otherwise in a prospectus supplement, registered securities denominated in United States dollars will be issued only in the denominations of $1,000 and any integral multiple thereof. All debt securities of any one series will be substantially identical except as to denomination and as otherwise provided by a board resolution, officer’s certificate or supplemental indenture. For any series of debt securities denominated in a foreign or composite currency, we will specify the denominations and any special United States federal income tax and other related considerations in a prospectus supplement. No service charge will be made for any transfer or exchange of debt securities, but we may require payment of a sum sufficient to cover any applicable tax or other governmental charge.

Payment of Debt Securities

Unless we state otherwise in a prospectus supplement, we will make payments with respect to debt securities as follows:

- We will pay interest on each interest payment date to the person in whose name the debt security is registered at the close of business on the regular record date for the interest payment. At our option, we may pay interest by mailing a check to each holder’s registered address or by wire transfer to an account designated by the holder under an arrangement that is satisfactory to the indenture trustee and us.

- We will pay principal of and any premium on registered securities at their stated maturity, upon redemption or when otherwise due, upon presentation of the debt securities at the corporate trust office of the indenture trustee in Chicago, Illinois.

Paying Agents. In a prospectus supplement, we will name any paying agents other than the indenture trustee that we have initially appointed for a series of debt securities. We may terminate the appointment of any of the paying agents at any time, except that we will maintain at least one paying agent in Chicago, Illinois for senior debt securities. In addition, we will maintain a paying agent in London or Luxembourg or any city outside the United States, if that is required by a stock exchange on which a series of senior debt securities is listed.

Any money we provide to a paying agent for the payment of principal, premium or interest that remains unclaimed at the end of two years after the payment became due and payable will be repaid to us. Thereafter, the holder of debt securities entitled to such payment must look only to us for payment.

Exchanges and Transfers of Debt Securities

Subject to the provisions of the applicable indenture and prospectus supplement, you may exchange your debt securities (other than debt securities represented by a global security, except as set forth below) for other debt securities of the same series with the same interest rate, maturity and total principal amount, as described in this section. You may have your debt securities divided or combined into smaller or larger authorized denominations.

You may exchange or transfer your debt securities, other than debt securities represented by a global security, at the office of the indenture trustee or another transfer agent designated by us and named in a prospectus supplement. We have appointed the indenture trustee to act as the security registrar for registering debt securities in the names of holders and transferring debt securities. We may appoint, remove or add additional transfer agents and change their locations. There will be no service charge for transfer or exchange of your debt securities, but you may be required to pay for any related taxes and other governmental charges.
In the event of any redemption, we are not required to:

- issue, register the transfer of or exchange the debt securities during a period of 15 days before giving any notice of redemption;
- register the transfer of or exchange any registered security selected for redemption in whole or in part, except the unredeemed portion of any registered security being redeemed in part; or
- register the transfer of or exchange any debt security if the holder of the debt security has expressed the right, if any, to require us to repurchase the debt security in whole or in part, except that portion of the debt security not required to be repurchased, provided that the debt security shall be immediately surrendered for redemption with written instructions for payment consistent with the provisions of the indenture.

**Redemption of Debt Securities**

We will set forth any terms for the redemption of debt securities in a prospectus supplement. Unless we indicate differently in a prospectus supplement, and except for debt securities redeemable at the option of the registered holder, we may redeem debt securities upon notice by mail between 30 and 60 days before the redemption date. If we choose to redeem less than all of the debt securities of any series or tranche of a series, the indenture trustee will select the debt securities to be redeemed. The indenture trustee will choose a method of selection it deems fair and appropriate unless another method has been specified in accordance with the indenture.

Debt securities will cease to bear interest on the redemption date. We will pay the redemption price and any accrued interest once you surrender the debt security for redemption (along with any remaining coupons in the case of bearer senior debt securities). If only part of a debt security is redeemed and you have surrendered the debt security, the indenture trustee will deliver to you a new debt security of the same series for the remaining portion without charge.

**Global Securities**

We may issue debt securities of any series in whole or in part in the form of one or more global securities that will be deposited with, or on behalf of, a depositary identified in the prospectus supplement relating to that series. Unless and until it is exchanged in whole or in part for individual certificates evidencing first mortgage bonds in definitive form, a global security may not be transferred except as a whole by the depositary for that global security to a nominee of that depositary or by a nominee of that depositary to that depositary or another nominee of that depositary or by that depositary or that nominee to a successor of that depositary or a nominee of that successor. We will describe the specific terms of the depositary arrangement for a series of debt securities in the prospectus supplement relating to that series.

**Events of Default and Remedies for Senior Debt Securities**

This section contains descriptions of the events of default and remedies specified in the senior indenture for the senior debt securities. The corresponding provisions for the subordinated debt securities, which differ in some material respects, are described in the next following section under the heading “Events of Default and Remedies for Subordinated Debt Securities.”

*Defaults.* An “event of default” under the senior indenture occurs with respect to any series of senior debt securities if:

- we do not pay any installment of interest on senior debt securities of the series within 30 days of when it is due;
- we do not pay principal or premium on any senior debt securities of the series when it is due;
• we do not pay any sinking fund installment on senior debt securities of the series when it is due;
• we remain in breach of any other covenant or agreement in the senior indenture for 60 days after
receiving notice from the indenture trustee or the holders of 25 percent in principal amount of all the
outstanding senior debt securities;
• we fail to pay any indebtedness of more than $10,000,000 when it is finally due and do not fully cure
the failure within 30 days after receiving of notice from the indenture trustee or the holders of
25 percent in principal amount of all the outstanding senior debt securities; or
• we file for bankruptcy or become subject to specified proceedings involving bankruptcy, insolvency or
reorganization.

An event of default with respect to one series of senior debt securities does not necessarily constitute an
event of default with respect to any other series of senior debt securities. We are required to file with the
indenture trustee an annual officer’s certificate indicating whether we are in default under the senior indenture.

Acceleration. If an event of default occurs and is continuing with respect to any series of senior debt
securities, either the indenture trustee or the holders of 25 percent in principal amount of the senior debt
securities of the series (or in the case of defaults described in the last three bulleted clauses under “Defaults”
above, the holders of 25 percent in principal amount of all the senior debt securities) may declare the principal
amount of the senior debt securities of that series (or of all the senior debt securities, as the case may be) to be
immediately due and payable. After a declaration of acceleration has been made and before the indenture trustee
has obtained a judgment or decree for payment of the money due, the holders of a majority in principal amount
of senior debt securities of that series or of all the senior debt securities, as the case may be, may rescind and
annul the acceleration if we have paid any past due payments of principal, premium or interest and met certain
other conditions. In certain cases, the holders of a majority in principal amount of the senior debt securities of
any series or of all the senior debt securities, as the case may be, may waive any past default or event of default.

Actions by Indenture Trustee and Holders. The senior indenture contains the following provisions regarding
the actions of the indenture trustee and the holders of the senior debt securities after an event of default:
• The indenture trustee must give notice of a default to the holders of senior debt securities of the
affected series within 90 days after a default occurs that is known to the indenture trustee, if the default
is not cured or waived. However, the indenture trustee may withhold the notice if it determines in good
faith that it is in the interests of the holders to do so, except in the case of a default in the payment of
principal, premium or interest.
• Subject to its duty to act with the required standard of care during a default, the indenture trustee is
entitled to be indemnified by the holders of the senior debt securities of a series before exercising any
right or power under the senior indenture with respect to the series at the request of the holders.
• No holder of senior debt securities of a series may institute proceedings to enforce the senior indenture
except, among other things, where the indenture trustee has failed to act for 60 days after it has been
given notice of a default and holders of 25 percent in principal amount of the senior debt securities of
the series (or in the case of defaults described in the last three bulleted clauses under “Defaults” above,
the holders of 25 percent in principal amount of all the senior debt securities) have requested the
indenture trustee to enforce the senior indenture and offered reasonable indemnity to the indenture
trustee.
• Each holder of senior debt securities has an absolute and unconditional right to receive payment of
principal, premium and interest when due and to bring a suit to enforce that right.
• The holders of a majority in principal amount of the senior debt securities of a series or of all the senior
debt securities, as the case may be, may direct the time, method and place of conducting any
proceedings for any remedy available to the indenture trustee or exercising any trust or power
conferred on it with respect to the senior debt securities of the series, as long as the direction does not conflict with any law or the senior indenture or expose the indenture trustee to personal liability. The indenture trustee may take any other action it deems proper that is not inconsistent with the direction of the holders.

Events of Default and Remedies for Subordinated Debt Securities

This section contains descriptions of the events of default and remedies specified in the subordinated indenture for the subordinated debt securities. The corresponding provisions for the senior debt securities, which differ in some material respects, are described in the preceding section under the heading “Events of Default and Remedies for Senior Debt Securities.”

Defaults. An “event of default” under the subordinated indenture occurs with respect to any series of subordinated debt securities if:

• we do not pay any installment of interest on subordinated debt securities of the series within 30 days of when it is due (following any deferral allowed under the terms of the subordinated debt securities and elected by us);
• we do not pay principal or premium on any subordinated debt securities of the series when it is due;
• we do not pay any sinking fund installment on subordinated debt securities of the series within 60 days of when it is due;
• we remain in breach of any other covenant or agreement in the subordinated indenture for 90 days after receiving notice from the indenture trustee or the holders of 25 percent in principal amount of the outstanding subordinated debt securities of the series;
• we file for bankruptcy or become subject to specified proceedings involving bankruptcy, insolvency or reorganization; or
• any other event of default specified in the prospectus supplement occurs.

An event of default with respect to one series of subordinated debt securities does not necessarily constitute an event of default with respect to any other series of subordinated debt securities. We are required to file with the indenture trustee an annual officer’s certificate indicating whether we are in default under the subordinated indenture.

Acceleration. If an event of default occurs and is continuing with respect to any series of subordinated debt securities, either the indenture trustee or the holders of 25 percent in principal amount of the subordinated debt securities of the series (or, if any subordinated debt securities of that series are original issue discount securities, such portion of the principal amount as may be specified in such securities) may declare the principal amount of the subordinated debt securities of that series to be immediately due and payable. After a declaration of acceleration has been made and before the indenture trustee has obtained a judgment or decree for payment of the money due, the holders of a majority in principal amount of subordinated debt securities of that series may rescind and annul the acceleration if we have paid any past due payments of principal, premium or interest and met certain other conditions. In certain cases, the holders of a majority in principal amount of the subordinated debt securities of all affected series, voting as one class, may waive any past default or event of default.

Actions by Indenture Trustee and Holders. The subordinated indenture contains the following provisions regarding the actions of the indenture trustee and the holders of the subordinated debt securities after an event of default:

• The indenture trustee must give notice of a default to the holders of subordinated debt securities of the affected series as provided by the Trust Indenture Act.
- Subject to its duty to act with the required standard of care during a default, the indenture trustee is entitled to be indemnified by the holders of the subordinated debt securities of a series before exercising any right or power under the subordinated indenture with respect to the series at the request of the holders.
- No holder of subordinated debt securities of a series may institute proceedings to enforce the subordinated indenture except, among other things, where the indenture trustee has failed to act for 60 days after it has been given notice of a default and holders of 25 percent in principal amount of the subordinated debt securities of all affected series, considered as one class (or in the case of defaults in the payment of principal, premium or interest, an affected series) have requested the indenture trustee to enforce the subordinated indenture and offered reasonable indemnity to the indenture trustee.
- Each holder of subordinated debt securities has an absolute and unconditional right to receive payment of principal, premium and interest when due and to bring a suit to enforce that right.
- The holders of a majority in principal amount of the subordinated debt securities of an affected series (or of all the subordinated debt securities, in the case of a default as to all series) may direct the time, method and place of conducting any proceedings for any remedy available to the indenture trustee or exercising any trust or power conferred on it with respect to the subordinated debt securities of the series, as long as the direction does not conflict with any law or the subordinated indenture or involve the indenture trustee in personal liability. The indenture trustee may take any other action it deems proper that is not inconsistent with the direction of the holders.

Modification of the Indenture

**Without Consent of Holders.** Without the consent of any holders of debt securities, we and the indenture trustees may enter into supplemental indentures to:

- evidence the succession of another entity to take our place and assume our covenants;
- add to our covenants for the benefit of the holders of all or any series of the debt securities, or surrender any right or power conferred upon us;
- add any additional events of default for all or any series of the debt securities;
- add to, change or eliminate any provisions of the applicable indenture, but those modifications will not apply to debt securities of any series that was created before the modifications;
- establish the form or terms of debt securities of any series as permitted by the unsecured indentures;
- evidence and provide for a successor or additional indenture trustee;
- provide security for the debt securities of any series;
- cure any ambiguity, defect or inconsistency or make any other changes that do not adversely affect the interests of the holders of debt securities; or
- evidence any changes in the disqualification and eligibility requirements applicable to the indenture trustee under the senior indenture, as permitted by the senior indenture, or effect any change to qualify the senior indenture under the Trust Indenture Act of 1939.

**With Consent of Holders.** We may enter into supplemental indentures with the indenture trustees to modify the unsecured indentures or the rights of holders of the debt securities, if we obtain the consent of the holders of at least a majority in principal amount of the debt securities affected by the modification. However, without the consent of all affected holders of debt securities, no supplemental indenture may:

- change the stated maturity of the principal or interest on any debt security, reduce the principal amount or interest payable, reduce any premium payable upon redemption, reduce the amount of principal of
an original issue discount security payable upon its acceleration, change the currency in which any debt security is payable, change any right of redemption or repurchase, or impair the right to bring suit to enforce any payment;

- reduce the percentages of holders whose consent is required for any supplemental indenture or waiver or reduce the requirements for quorum and voting under the indentures; or
- modify certain provisions in the unsecured indentures relating to supplemental indentures and waivers of covenants and past defaults.

A supplemental indenture that changes or eliminates any provision of the unsecured indentures expressly included solely for the benefit of holders of debt securities of one or more particular series will be deemed not to affect the rights of the holders of debt securities of any other series.

Consolidation, Merger and Sale of Assets; No Financial Covenants

Subject to the provisions described in the next paragraph, we will preserve our corporate existence.

We have agreed not to consolidate with or merge into any other entity and not to convey, transfer or lease our properties and assets substantially as an entirety to any entity, unless:

- the entity formed by the consolidation or merger, or which acquires or leases our property and assets substantially as an entirety, is organized and existing under the laws of the United States or any state or the District of Columbia, and expressly assumes, by a supplemental indenture in form satisfactory to the indenture trustees, the due and punctual payment of the principal, premium and interest on all the debt securities and the performance of all of our covenants under the unsecured indentures;
- immediately after giving effect to the transactions, no event of default, and no event which after notice or lapse of time or both would become an event of default, will have happened and be continuing; and
- we have given the indenture trustees an officers’ certificate and legal opinion that all conditions in the unsecured indentures relating to the transactions have been complied with.

The unsecured indentures contain no financial or other similar restrictive covenants. Any such covenants with respect to any particular series of debt securities will be set forth in the applicable prospectus supplement. There are no provisions of the unsecured indentures that protect holders of the debt securities in the event of a highly leveraged transaction involving Southern California Edison. However, management of Southern California Edison believes that required regulatory approvals of a highly leveraged transaction would be unlikely to be obtained.

Discharge and Defeasance

There are significant differences between the provisions of the senior indenture and the subordinated indenture for defeasance of debt securities and discharge of our obligations. The respective provisions are discussed separately below.

Defeasance of Senior Debt Securities When we issue a series of senior debt securities, we may specify that we will be discharged from any and all obligations in respect of those senior debt securities (except as described below) upon the irrevocable deposit with the indenture trustee of money and/or government obligations which will provide money in an amount sufficient to pay principal, premium and interest on the senior debt securities when due in accordance with the terms of the senior indenture and the senior debt securities. We must also satisfy conditions that:

- the deposit will not cause the indenture trustee to have a conflicting interest;
- there is no event of default under the senior indenture within 91 days after the deposit;
• the deposit will not result in breach or violation of any applicable laws, the senior indenture or any other agreement by which we are bound;

• the deposit will not result in a trust that is an investment company subject to the Investment Company Act of 1940, or such trust will be qualified or exempt from the Investment Company Act of 1940; and

• we have delivered to the indenture trustee an officer’s certificate and an opinion of counsel each stating that all conditions in the senior indenture to the defeasance and discharge have been complied with.

The discharge of our obligations does not include certain obligations to register the transfer or exchange of senior debt securities, replace stolen, lost or mutilated senior debt securities, maintain paying agencies and hold monies for payment in trust and, if so specified as to the senior debt securities of a series, to pay the principal, premium and interest on those senior debt securities.

We may specify as to the senior debt securities of a series that the deposit of money described above will be made only if it will not cause the senior debt securities listed on any nationally recognized securities exchange to be de-listed. We may also specify as to a series of senior debt securities that the deposit will be conditioned on our giving to the indenture trustee an opinion of counsel (who may be our counsel) to the effect that, based upon applicable United States federal income tax laws or a ruling published by the United States Internal Revenue Service, the deposit and discharge will not be a taxable event for the holders of the senior debt securities.

**Defeasance of Subordinated Debt Securities.** The subordinated indenture provides, unless the terms of the particular series of subordinated debt securities provide otherwise, that upon satisfying several conditions we may cause ourselves to be:

• discharged from our obligations, with some exceptions, as to any series of subordinated debt securities, which we refer to as “defeasance;” and

• released from our obligations under specified covenants as to any series of subordinated debt securities, which we refer to as “covenant defeasance.”

The conditions that we must satisfy for either a defeasance or a covenant defeasance of a series of subordinated debt securities include:

• the irrevocable deposit with the indenture trustee, in trust, of money and/or government obligations which, through the scheduled payment of principal and interest on those obligations, would provide sufficient moneys to pay principal, premium and interest on the subordinated debt securities on the maturity dates of the payments or upon redemption;

• there is no event of default under the subordinated indenture at the time of such deposit or, as to defaults related to bankruptcy or similar proceedings, within 90 days after the deposit;

• notice of redemption of the subordinated debt securities has been given or provided for, if the subordinated debt securities are to be redeemed before their stated maturity (other than from mandatory sinking fund payments or analogous payments); and

• we have delivered to the indenture trustee an officer’s certificate and an opinion of counsel each stating that all conditions to the defeasance or covenant defeasance have been complied with.

The discharge of our obligations through a defeasance or covenant defeasance does not discharge the rights of the holders of the defeased subordinated debt securities to receive payments of principal, premium and interest from the trust funds when due, or our obligations to register the transfer or exchange of subordinated debt securities, replace stolen, lost or mutilated subordinated debt securities, maintain paying agencies and hold monies for payment in trust.

The subordinated indenture permits defeasance as to any series of subordinated debt securities even if a prior covenant defeasance has occurred as to the subordinated debt securities of that series. Following a
defeasance, payment of the subordinated debt securities defeased may not be accelerated because of an event of default. Following a covenant defeasance, payment of the subordinated debt securities may not be accelerated because of a breach of the specified covenants affected by the covenant defeasance. However, if an acceleration were to occur, the realizable value at the acceleration date of the money and government obligations in the defeasance trust could be less than the principal and interest then due on the subordinated debt securities defeased, since the required deposit in the defeasance trust would be based upon scheduled cash flows rather than market value, which would vary depending upon interest rates and other factors.

**Tax Effects of Defeasance of Debt Securities.** Under current United States federal income tax law, the defeasance of either senior or subordinated debt securities as described in the preceding paragraphs would be treated as an exchange of the relevant debt securities in which holders of the debt securities might recognize gain or loss. In addition, the amount, timing and character of amounts that holders would be required after the defeasance to include in income might be different from that which would be includible in the absence of the defeasance. You should consult your own tax advisors as to the specific consequences of a defeasance, including the applicability and effect of tax laws other than United States federal income tax laws.

Under current United States federal income tax laws, unless accompanied by other changes in the terms of the subordinated debt securities, covenant defeasance of subordinated debt securities generally should not be treated as a taxable exchange.

**Subordination**

Subject to the provisions of the subordinated indenture and prospectus supplement, each series of subordinated debt securities will be subordinate and junior in right of payment to all Senior Indebtedness as defined below. If:

- we make a payment or distribution of any of our assets to creditors upon our dissolution, winding-up, liquidation or reorganization, whether in bankruptcy, insolvency or otherwise;
- a default beyond any grace period has occurred and is continuing with respect to the payment of principal, interest or any other monetary amounts due and payable on any Senior Indebtedness; or
- the maturity of Senior Indebtedness has been accelerated because of a default on that Senior Indebtedness,

then the holders of Senior Indebtedness generally will have the right to receive payment, in the case of the first instance, of all amounts due or to become due upon that Senior Indebtedness, and, in the case of the second and third instances, of all amounts due on that Senior Indebtedness, or we will make provision for those payments, before the holders of any subordinated debt securities have the right to receive any payments of principal or interest on their subordinated debt securities.

Senior Indebtedness means, with respect to any series of subordinated debt securities, the principal premium, interest and any other payment in respect of any of the following:

- all of our current and future indebtedness for borrowed or purchase money whether or not evidenced by notes, debentures, bonds or other similar written instruments;
- our obligations under synthetic leases, finance leases and capitalized leases;
- our obligations for reimbursement under letters of credit, banker’s acceptances, security purchase facilities or similar facilities issued for our account;
- any of our other indebtedness or obligations with respect to derivative contracts, including commodity contracts, interest rate, commodity and currency swap agreements forward contracts and other similar agreements or arrangements; and
• all indebtedness of others of the kinds described in the preceding categories which we have assumed or
guaranteed.

Senior Indebtedness will not include trade accounts payable, accrued liabilities arising in the ordinary
course of business or indebtedness to our subsidiaries.

Senior Indebtedness will be entitled to the benefits of the subordination provisions in the subordinated
indenture irrespective of the amendment, modification or waiver of any term of the Senior Indebtedness. We may
not amend the subordinated indenture to change the subordination of any outstanding Senior Indebtedness
without the consent of each holder of Senior Indebtedness that the amendment would adversely affect.

The subordinated indenture does not limit the amount of Senior Indebtedness that we may issue.

Concerning the Indenture Trustee

The Bank of New York Mellon Trust Company, N.A., and certain of its affiliates act as trustees for our first
and refunding mortgage bonds and certain pollution control bonds issued on our behalf. The Bank of New York
Mellon Trust Company, N.A., also is the trustee under an indenture under which our parent, Edison International,
may issue debt securities in the future. We maintain bank deposits with The Bank of New York Mellon and may
borrow money from the bank from time to time.

Governing Law

The indentures and the debt securities will be governed by and construed in accordance with the laws of the
State of New York.

DESCRIPTION OF THE PREFERRED STOCK AND PREFERENCE STOCK

The following description of Southern California Edison’s preferred stock and preference stock is a
summary, and it does not describe every aspect of the preferred stock and preference stock. Southern California
Edison’s restated articles of incorporation, which are referred to in this prospectus as the “articles of
incorporation,” contain the full legal text of the matters described in this section. This summary is subject to and
qualified by the articles of incorporation. Therefore, you should read carefully the detailed provisions of the
articles of incorporation, which we have incorporated by reference as an exhibit to the registration statement that
includes this prospectus. This summary also is subject to and qualified by the description of the particular terms
of the preferred stock and preference stock in the applicable prospectus supplement.

General

The rights, preferences and privileges of the preferred stock or preference stock are established by the
articles of incorporation. Whenever we offer and sell preferred stock or preference stock, our board of directors
or a committee of the board of directors will adopt, and we will file with the California Secretary of State, a new
certificate of determination of preferences to establish the terms of each new series of preferred stock or
preference stock. We will also set forth the terms in a prospectus supplement.

Southern California Edison’s authorized capital stock consists of the following classes of shares of stock
with the following number of shares per class:

• cumulative preferred stock – 24,000,000 shares with a par value of $25 per share;
• $100 cumulative preferred stock – 12,000,000 shares with a par value of $100 per share;
• preference stock – 50,000,000 shares with no par value; and
• common stock – 560,000,000 shares with no par value.

As of June 30, 2018, Southern California Edison had issued and outstanding 4,800,198 shares of cumulative preferred stock, no shares of $100 cumulative preferred stock, 1,060,020 shares of preference stock, and 434,888,104 shares of common stock. All of the outstanding shares of common stock are owned by Edison International.

Preferred Stock

The Southern California Edison board of directors or a committee of our board of directors may authorize the preferred stock to be issued from time to time as one or more series of cumulative preferred stock or $100 cumulative preferred stock. For each new series of preferred stock, the board of directors or a committee of our board of directors, within the limitations and restrictions stated in Article Sixth of the articles of incorporation, may fix the number of shares, dividend rights, dividend rate, including fixed and variable rates, conversion rights, voting rights (in addition to the voting rights provided in the articles of incorporation), rights and terms of redemption (including sinking fund provisions), redemption price or prices and voluntary liquidation preferences. We will set forth in a prospectus supplement the terms of each series of preferred stock offered through this prospectus.

Preference Stock

The articles of incorporation authorize our board of directors or a committee of our board of directors, from time to time, in one or more series, and without further shareholder action, to provide for the issuance of up to 50,000,000 shares of preference stock, no par value. For each new series of preference stock, the board of directors or a committee of our board of directors may fix the number of shares, dividend rights, dividend rate, including fixed and variable rates, conversion rights, voting rights (if any), rights and terms of redemption (including sinking fund provisions), redemption price or prices and voluntary liquidation preferences. We will set forth in a prospectus supplement the following terms of each series of preference stock offered through this prospectus:

• the designation of the series;
• the total number of shares being offered;
• the general or special voting rights of such shares, if any;
• the price or prices at which shares will be offered and sold;
• the dividend rate (including any step-up or step-down), period and payment date or method of calculation applicable to the preference stock;
• the date from which dividends on the preference stock accumulate, if applicable
• whether the dividend rate is fixed or variable;
• any mandatory or optional sinking fund, purchase fund or similar provisions, if any;
• the terms and conditions, if applicable, upon which the preference stock will be convertible into common stock, including the conversion price (or manner of calculation)
• the dates, prices and other terms of any optional or mandatory redemption;
• the relative ranking and preferences of the preference stock as to dividend rights and rights upon liquidation (whether voluntary or involuntary), dissolution or winding up of our affairs;
• any liquidation preferences;
• the procedures for auction and remarketing, if any, of the shares;
• any listing of the shares on a securities exchange; and
• any other specific terms, preferences, rights, limitations or restrictions.

Rank of the Preference Stock

Unless we state otherwise in a prospectus supplement, all series of preference stock will rank equally as to dividends and payments upon liquidation, dissolution or winding up. The preference stock ranks junior to all of the preferred stock and senior to all common stock.

Distribution Rights

A prospectus supplement will describe the circumstances relating to distributions on our preference stock. Holders of our preference stock of each series will be entitled to receive distributions, when, as, and if declared by our board of directors, out of our assets legally available for payment to shareholders. These distributions may be cash distributions or distributions in kind or in other property. The prospectus supplement will describe the rates of the distributions and the dates we will make distributions. Each distribution shall be payable to holders of record on such record date as shall be fixed by our board of directors. Dividends on any series of preference stock being offered may be cumulative or non-cumulative. Distributions on any series of preference stock, if cumulative, will be cumulative from and after the date set forth in the applicable prospectus supplement. Whenever dividends on any shares of the preferred stock are in default, we may not:

• pay or declare any dividend on the preference stock or common stock, except a dividend payable in preference stock or common stock; or
• purchase or redeem any shares of preference stock or common stock, except with the proceeds of any sale of shares of preference stock or common stock.

The first mortgage bond indenture securing our first mortgage bonds provides, in substance, that we cannot pay any cash dividends except out of surplus at December 31, 1921, and out of earnings since then. None of our present earnings reinvested in the business are restricted by this provision. We do not expect this provision to have any adverse effect on our ability to pay dividends on the preference stock.

Voting Rights

Holders of preference stock will not have any voting rights, except as required by law or as indicated in the applicable prospectus supplement.

Liquidation Rights

If we liquidate, dissolve or wind up our affairs, then, before we make distributions to holders of common stock or any other class or series of shares of our capital stock ranking junior to the preference stock in the distribution of assets, the holders of each series of preference stock shall be entitled to receive liquidating distributions out of our assets legally available for distribution to shareholders. We will make liquidating distributions in the amount of the liquidation preference set forth in the applicable prospectus supplement plus an amount equal to all accumulated and unpaid distributions. After payment of the full amount of the liquidating distributions to which they are entitled, the holders of shares of preference stock will have no right or claim to any of our remaining assets.

If we liquidate, dissolve or wind up and we do not have enough legally available assets to pay the amount of the liquidating distributions on all outstanding shares of preference stock and other classes of capital stock ranking equally with the preference stock in the distribution of assets, then the holders of the preference stock and all other such classes or series of shares of capital stock shall share ratably in any such distribution of assets in proportion to the full liquidating distributions to which they would otherwise be respectively entitled.
Redemption

A prospectus supplement may provide that the preference stock will be subject to mandatory redemption or redemption at our option, in whole or in part. The prospectus supplement will describe the terms, the times and the redemption prices of the preference stock.

Other Provisions

Holders of shares of preference stock will not have any preemptive rights. The preference stock, when issued, will be fully paid and nonassessable.

Registration and Transfer

We will select a transfer agent and registrar for the preference stock that we issue at the time of issuance.

EXPERTS

The consolidated financial statements of Southern California Edison Company incorporated in this Prospectus by reference to the Annual Report on Form 10-K of Southern California Edison Company for the year ended December 31, 2017 have been so incorporated in reliance on the report of PricewaterhouseCoopers LLP, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

VALIDITY OF THE SECURITIES

The validity of the first mortgage bonds, debt securities, preferred stock and preference stock offered by this prospectus will be passed upon for Southern California Edison by Barbara E. Mathews, its Vice President, Associate General Counsel, Chief Governance Officer and Corporate Secretary. Certain legal matters will be passed upon for any underwriters by Cleary Gottlieb Steen & Hamilton LLP, New York, New York.

Ms. Mathews is a salaried employee of Southern California Edison and earns stock-based compensation based on Edison International’s common stock. Additionally, she may hold Edison International stock-based interests through an employee benefit plan and can participate in an Edison International shareholder dividend reinvestment and stock purchase plan. She owns no securities of Southern California Edison. Cleary Gottlieb Steen & Hamilton LLP, New York, New York has from time to time provided, and may provide in the future, legal services to Southern California Edison and its affiliates.

WHERE YOU CAN FIND MORE INFORMATION

Available Information

We file reports required by the Securities Exchange Act of 1934, as amended, proxy statements and other information with the Securities and Exchange Commission. You may read and copy these reports and proxy statements and other information at the Public Reference Room maintained by the Securities and Exchange Commission at 100 F Street, N.E., Washington, D.C. 20549. You may obtain further information on the operation of the Securities and Exchange Commission’s Public Reference Room by calling them at 1-800-SEC-0330.

The Securities and Exchange Commission also maintains an Internet web site that contains reports, proxy statements and other information about issuers, such as Southern California Edison, that file electronically with the Securities and Exchange Commission. The address of that web site is http://www.sec.gov.
You may also review reports, proxy statements and other information about Southern California Edison at our offices at 2244 Walnut Grove Avenue, Rosemead, California 91770. You may view and obtain copies of some of those reports and other information on the web site maintained by Southern California Edison’s parent, Edison International, at http://www.edison.com. Except for the documents specifically incorporated by reference into this prospectus, information contained on Edison International’s web site or that can be accessed through its web site does not constitute part of this prospectus.

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission. You may obtain the full registration statement from the Securities and Exchange Commission or us, as indicated below. We filed forms or copies of the articles of incorporation, indentures and other documents establishing the terms of the offered securities as exhibits to the registration statement. Statements in this prospectus or any supplement about these documents are summaries. You should refer to the actual documents for a more complete description of the relevant matters.

Incorporation by Reference

The rules of the Securities and Exchange Commission allow us to “incorporate by reference” into this prospectus, which means that we can disclose important information to you by referring you to another document filed separately with the Securities and Exchange Commission. The information incorporated by reference is considered to be part of this prospectus, and later information that we file with the Securities and Exchange Commission will automatically update and supersede the earlier information. This prospectus incorporates by reference the documents listed below that we have previously filed or may file in the future with the Securities and Exchange Commission. These documents contain important information about Southern California Edison.

- Our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2018 and June 30, 2018.
- Our Current Reports on Form 8-K filed January 31, February 27, March 5, April 27, May 18, and June 4, 2018.
- All additional documents that we file with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 between the date of this prospectus and the end of the offering of the securities described in this prospectus. Those documents include Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and proxy statements mailed to our shareholders.

Upon request, we will provide a copy of any of these filings without charge to each person to whom a copy of this prospectus has been delivered. You may request a copy of these filings by writing or calling us at:
